

**BC Science 10****Practice Exam B****Instructions:**

For each question, select the **best** answer and record your choice.

Refer to the **BC Science 10** data pages as necessary.

---

1. Which of these components of an ecosystem are examples of abiotic factors??

I	soil, rain
II	fungi, bacteria
III	plants, animals
IV	sunshine, temperature

- A. I and II  
B. I and IV  
C. II and III  
D. III and IV
- 

Use the following article to answer the question.

**Scientists Sign Petition, Global Warming Not the Fault of Human Activity**

Over 31 000 scientists from the United States have signed a petition stating they do not believe human activities have caused global warming.

The petition states that there is not enough evidence to prove that human activities have added excess “greenhouse gases” to the atmosphere that increase the overall temperature of our world. The petition also states that, even if global warming is occurring, we should let it happen, as there are benefits to having more methane and carbon dioxide in the atmosphere.

The petition, along with information about the people signing the petition, can be found at the website [www.oism.org/pproject](http://www.oism.org/pproject).

Adapted from [www.canadafreepress.com/index.php/article/3128](http://www.canadafreepress.com/index.php/article/3128)

2. Most scientists deny that man is responsible for global warming.

- A. The statement is refuted by the article.  
B. The statement is supported by the article.  
C. The statement is both supported and refuted by the article.  
D. The statement is neither supported nor refuted by the article.
