Political Ecology of African Peace Parks

Maano Ramutsindela, 2025-11-06 Peace parks are imagined landscapes and seascapes created through narratives and science This book uses a political ecology framework to explore the colonial and uneven geography of peace parks in post independence Africa It illuminates the regional milieus impacting these parks and the consequent socioecological and political dynamics This book curates a space for multiple voices and knowledges of peace parks and highlights the limits to truth claims It presents peace parks as a milieu that enables the assemblage of underexamined concepts in political ecology The book advances four arguments The first is that critical scholarship on the peace parks initiative in Africa and elsewhere has been crowded out by a dominant and well sponsored narrative of these parks Second the ideology of peace parks capitalises on societal aspirations and challenges to wage the war of the mind Third peace parks are a geographical expression of coloniality The fourth argument is that the regional dynamics account for the uneven geography of peace parks in Africa These dynamics reveal the symbiotic relations between politics and ecology The founding of peace parks animates resource politics but also depoliticises the resource question Situated in the ongoing debates on protecting the planet in an unequal world and the pathways for a just society this book will be of interest to researchers of African studies political ecology human geography sociology environmental studies and political science

A Matter of Weeks Rather Than

Months J R T Wood, 2012-08-02 Founded on 35 years of research into the post 1945 Anglo Rhodesian history this book complements Richard Wood's *The Welensky Papers A History of the Federation of Rhodesia and Nyasaland 1953-1963* and *So Far and No Further Rhodesia's bid for independence during the retreat from empire 1959-1965*. 2005 Of *So Far* Michael Hartnack wrote that 'Once in a lifetime comes a book which must force a total shift in the thinking person's perception of an epoch and of all the prominent characters who featured in it'. *A Matter of Weeks Rather than Months* recounts the action and reaction to Ian Smith's unilateral declaration of Rhodesia's independence, the second such declaration since the American one of 1776. It examines the dilemmas of both sides. Smith's problem was how to legitimise his rebellion to secure crucial investment, capital, markets, trade and more. His antagonist, the British Prime Minister Harold Wilson, was determined not to transfer sovereignty until Rhodesia accepted African majority rule in common with the rest of Africa. Given British feelings for their Rhodesian kith and kin and Rhodesia's landlocked position, Wilson eschewed the use of force. He could only impose sanctions but hoped they would defeat Smith in a matter of weeks rather than months. The Rhodesians, however, evaded the sanctions with such success that they forced Wilson to negotiate a settlement. Negotiations were nevertheless doomed because the self-confident Rhodesians would not accept a period of direct British rule while rapid progress to majority rule was made or the imposition of restraints on powers they had possessed since gaining self-government in 1923. In tune with their allies in the African National Congress of South Africa, the Rhodesian or Zimbabwean African nationalists had already adopted the Marxist concept of the Armed Struggle as a means to power. Sponsored by the Communist Bloc, its surrogates and allies, they began a series of armed incursions from their safe haven in Zambia. Although bloodily and easily repulsed, they would learn from their mistakes as the Rhodesian forces would discover in the 1970s. Consequently, this is a tale of sanctions, negotiations and counter-insurgency warfare.
