Settings explores a range of approaches to curriculum and to documenting children's learning in early childhood settings. This valuable resource for early childhood education students and practitioners provides a broad view of the concepts and issues in early childhood curriculum. Chapters reflect ongoing discussions about what is meant by the terms planning and programming in the context of early childhood, what is authentic curriculum for young children and effective teaching strategies to extend young children's learning. The strong focus on sociocultural theories of learning promotes awareness of children's diverse experiences, competencies and learning styles and helps readers recognise the need for collaborative partnerships between educators, children and families in order to develop appropriate programs. Thoroughly revised and updated, this new edition shows how chapters of the text are relevant to the Australian Professional Standards for teachers and highlights connections to the school-based context. Numerous real-life examples, reflections, articles and case studies assist students to understand a variety of educational theories, philosophies and frameworks. Throughout the book, there is a focus on the processes of reflection, evaluation and ongoing improvement.

**Thinking for Primary Writing** Adrian Copping, 2025-02-28. Drawing on the author's personal experience, this book provides a deeper understanding of how children experience the writing process in primary school. The framework termed 'think for writing' demonstrates that training children in creative writing and providing creative thinking opportunities can develop their writing and improve their confidence in writing. Aimed at all teachers and trainees, it examines each element of the framework: the thinking environment, task design, training creative thinking, the building blocks of the writing process and developing children's creative self-efficacy. This range of ideas and approaches across all elements of the writing process that teachers can adapt, adopt and apply to their own practice. This book also demonstrates that a lot of the key work in developing writing is done in between the building blocks of the writing process. This work in the gaps includes process feedback and feedback on the application of ideas. Ultimately, this book provides a resource for teachers to develop their writing pedagogy and children's outcomes whilst meeting National curriculum for England and Wales requirements and
