between human and nonhuman animals The volume begins with an account of the first modern mental hospital La Salpêtrière established in 1656 and the first panoptical zoo the menagerie at Versailles created in 1662 by the same royal architect the final chapter presents a choreographic performance that imagines the Toronto Zoo as a place where the human body can be inspired by animal bodies From beginning to end through interdisciplinary collaboration this volume decentres the human subject and offers alternative ways of thinking about zoos and their inhabitants This collection immerses readers in the lives of animals and their experiences of captivity and asks us to reflect on our own assumptions about both humans and animals An original and groundbreaking work Zoo Studies will change the way readers see nonhuman animals and themselves
