You probably use websites every day but have you ever thought about building them? With the help of this book now you can. In this exceptional step by step guide you will learn what web development is all about which resources will help you master it and how you can build stunning and interactive websites. After instructing you on how to create your own personal web portfolio the author will take you through all the major web development languages and technologies including the following: HTML, CSS, JavaScript, Bootstrap and jQuery, PHP and MySQL, WordPress. Each of these chapters contains best practices and tips for success as well as a Show Your Skills section with practical and fun project ideas for you to apply what you're learning. For example: Write a JavaScript program that will run the game Chutes and Ladders thousands of times and determine the minimum, maximum and average number of turns to win. Lastly you will find out how to transform your newfound hobby into a profitable career by becoming a freelance web developer. The author will share tips for perfecting your portfolio and finding clients especially through the popular freelancing website Upwork. If you've ever been curious about web development but didn't know where to start this book is for you. Come and embrace both your creativity and logic by delving into the wonderful world of web development. About the Expert: Liz Kazandzhy is a passionate web developer who also greatly enjoys writing and editing. As the daughter of a software engineer she has always had a knack for technology so when she stumbled upon web development in 2016 it was love at first keystroke. She studied it voraciously and began building websites related to her personal interests like RandomScriptureVerse.com. In time she started branching out and building websites for others like JonathanWhitlockArt.com. Liz currently lives in Orem, UT with her husband Vlad and two energetic young daughters Katya and Sophia. In the rare moments when the kids are asleep and the housework is done she enjoys reading, writing and developing websites. HowExpert publishes quick how-to guides on all topics from A to Z by everyday experts. *The National Guide to Educational Credit for Training Programs* American Council on Education, 2005. Highlights over 6,000 educational programs offered by business, labor unions, schools, training suppliers, professional and voluntary associations and government agencies. *Willing's Press Guide*, 2003. Coverage of publications outside the UK and in non-English languages expands steadily until in 1991 it occupies enough of the Guide to require publication in parts. The Microcontroller Idea Book Jan Axelson, 1997. A hands-on introduction to microcontroller project design with dozens of example circuits and programs. Presents practical designs for use in data loggers, controllers and other small computer applications. Example circuits and programs in the book are based on the popular 8052 BASIC microcontroller whose on-chip BASIC programming language makes it easy to write, run and test your programs. With over 100 commands, instructions and operators the BASIC 52 interpreter can do much more than other single-chip BASICs. Its abilities include floating point math, string handling and special commands for storing programs in EPROM, EEPROM or battery-backed RAM. *Constructing*
