Maple 12: User Manual ,2008 **Maple User Manual** ,2008 *Maple 12* ,2008 Maple V Language Reference Manual Bruce W. Char,Keith O. Geddes,Gaston H. Gonnet,Benton L. Leong,Michael B. Monagan,Stephen M. Watt,2012-12-06

The design and implementation of the Maple system is an on going project of the Symbolic Com putation Group at the University of Waterloo in Ontario Canada This manual corresponds with version V roman numeral five of the Maple system The on line help subsystem can be invoked from within a Maple session to view documentation on specific topics In particular the command updates points the user to documentation updates for each new version of Maple The Maple project was first conceived in the autumn of 1980 growing out of discussions on the state of symbolic computation at the University of Waterloo The authors wish to acknowledge many fruitful discussions with colleagues at the University of Waterloo particularly Morven Gen tleman Michael Malcolm and Frank Tompa It was recognized in these discussions that none of the locally available systems for symbolic computation provided the facilities that should be expected for symbolic computation in modern computing environments We concluded that since the basic design decisions for the then current symbolic systems such as ALTRAN CAMAL REDUCE and to design a new system MACSYMA were based on 1960 s computing technology it would be wise from scratch taking advantage of the software engineering technology which had become available since then as well as drawing from the lessons of experience Maple s basic features e g elementary data structures input output arithmetic with numbers and elementary simplification are coded in a systems programming language for efficiency
