

Diamond Nine Activity Teacher Guide

Diamond Nine activities are a great way for children to learn about the importance this game of different activities, resources and more.

Children are given two different scenarios and asked to place them in order of importance. The most important goes in the top of the diamond the least important at the bottom. The child answers go down the top of the diamond according to the child's view of each.

Support the children that they should not be worried about being wrong, writing their ideas down because this is their world and they need to shape their ideas.

Encourage the children to understand that there is no right or wrong answer and the people answering are the ones affected.

The final step will be for children to share their ideas with the rest of the class. The children need to give others their own view.
