## **Diary Of A Psychopath The Psychopath 1:**

**Psychopath's Diary Vol. I** Kirill Khrestinin, 2020-06-30 It was a cold rainy night when I came home and found a package on my front porch The sender's name and address were missing from the label I opened the package and discovered inside of it a manuscript titled Psychopath's Diary Vol I I was instantly pulled into the mind of a serial killer and introduced to a reality that far surpassed any definition of normal in today's society Psychopath's Diary Vol I is the essence of taboo It can only be described as a poetry of violence A symphony of torture A tale of sexual deviance with a drop of incest and necrophilia You want to stop reading but you simply cannot It is like taking a bite out of a forbidden fruit even if the taste of it spoils the sensitive stomach of our morality One question ran through my mind over and over why me Why did the killer send his confession of the crimes he had committed to me I searched for an answer within the pages of the manuscript but could not find one not even a hint There is something that has to link him and I but what

**Without Conscience** Robert D. Hare, 2011-09-20 Most people are both repelled and intrigued by the images of cold blooded conscienceless murderers that increasingly populate our movies television programs and newspaper headlines With their flagrant criminal violation of society's rules serial killers like Ted Bundy and John Wayne Gacy are among the most dramatic examples of the psychopath Individuals with this personality disorder are fully aware of the consequences of their actions and know the difference between right and wrong yet they are terrifyingly self centered remorseless and unable to care about the feelings of others Perhaps most frightening they often seem completely normal to unsuspecting targets and they do not always ply their trade by killing Presenting a compelling portrait of these dangerous men and women based on 25 years of distinguished scientific research Dr Robert D Hare vividly describes a world of con artists hustlers rapists and other predators who charm lie and manipulate their way through life Are psychopaths mad or simply bad How can they be recognized And how can we protect ourselves This book provides solid information and

surprising insights for anyone seeking to understand this devastating condition     **I, Psychopath** Stephen M. Kahn, Ph.D., 2008-07-18 One of the most fascinating segments of the deviant population is the anti social personality and particularly the psychopath This type of individual is the most enigmatic of all law breakers because of the ability to commit crimes in a totally random fashion The unpredictability of this person s behavior has always made it difficult for authorities to effect an apprehension in a timely manner Until the psychopath is arrested there is really no stopping the crimes that continually occur The book is a fictional account of such a person and also a detailed development rationale and actions as culled from the author s years of experience in working with this type of personality     *The psychopath* ,1978
