the first time a number of important essays Written over the last twenty years they range from the fate of sociology to the problematic end of Marxism Two questions inspire these essays If thinkers are prisoners of their political contexts how can thought apprehend historical movement Can moral imagination alter social constraints Birnbaum sees sociology as historical and philosophical commentary shaped by politics In a close and subtle examination of the Marxist legacy he makes an innovative analytical move and turns Marxism upon itself His inquiry includes an essay on the Marxist theory of religion an essay which is itself a contribution to the debate of society and spirituality An inquiry into the antithesis of Marxism and psychoanalysis asks if any project of human self transformation is still plausible In an essay dated 1984 he anticipates the collapse of the Communist regimes and new conflicts in the West In a stringent article written after the sixties but which speaks to the nineties Birnbaum considers the technocratic servitude of the liberal university Finally he describes the contradictory advice offered to President Mitterrand when he convened the world s intellectual vanguard in Paris in 1983 Birnbaum concludes half in melancholy and half in hope that the intellect s critical tasks are unending Historians political thinkers sociologists and theologians will find their central themes in this collection as will students of modern culture They are written however not for the academy alone but for a general public confronting continuous and profound change
