## **Depth Of Knowledge Examples For Kindergarten:**

Children at Their Best Bettye Jo Wray-Fears, Karin Kalbantner-Wernicke, 2014-04-21 The authors describe an exciting new way of understanding a child's development by looking at how the Five Elements of Chinese thought can explain patterns of behaviour. They list the problems that can occur if a child's elements are not in balance and presents approaches and activities to help them become more balanced, happier and more resilient.

**Understanding Digital Technologies and Young Children** Susanne Garvis, Narelle Lemon, 2015-09-08 Understanding Digital Technologies and Young Children explores the possibilities digital technology brings to enhance the learning and developmental needs of young children. Globally, the role of technology is an increasingly important part of everyday life. In many early childhood education frameworks and curricula around the world, there is an expectation that children are developing skills to become effective communicators and are using digital technology to investigate their ideas and represent their thinking. This means that educators throughout the world are expected to actively enhance children's learning in ways that provide learning experiences with technology that are balanced and purposeful to allow the transformation of traditional authentic learning experiences. Digital technologies can be used to explore, manipulate, discover, play and interact with real and imaginative worlds to allow active meaning making. With a wide range of expert contributors, this book provides a comprehensive examination of the current research on technology and young children and the importance of engagement for learning. This approach encourages the reader to rethink the possibilities and potential of digital technologies for learning in the early years, especially in the years before formal schooling when children might be attending early childhood settings. This will be a valuable reference for anyone looking for an international perspective on digital technology and young children and is particularly aimed at current and future teachers.

Parental Engagement and Early Childhood Education Around the World Susanne Garvis, Sivan Phillipson, Heidi Harju-Luukkainen, Alicja Renata Sadownik, 2021-12-23 Exploring the importance of parental engagement in early childhood education, this book delves into research and practices in 25 countries to bring students, researchers, teachers and policy makers insights into working families around the world. The incorporation and consideration of parental engagement and involvement in early childhood education are a new phenomenon in many countries. Yet increasing research recognises the importance of parental engagement and involvement in early childhood education services and the role both parents and teachers play to support children's learning and development. Using a range of materials from curriculum to policy documents, Garvis et al demonstrate differences in practices and terminologies pertaining to the topic and provide an international perspective on the importance of parental involvement and engagement in early childhood education services. The content covers a range of countries as well as countries beyond an Anglo-Saxon perspective. The different policy settings across these countries highlight how countries work with and involve parents differently, which is useful for jurisdictions where early childhood education is a developing aspect of a country's education.

system Looking at cultural influences partnership approaches parental collaboration institutional dominance and child involvement in parent meetings the content offers readers real understanding of parental engagement and involvement in different settings The readership includes students in early childhood education and researchers teachers policy makers and general members of the public interested in parental engagement or involvement in early childhood education across the globe

The Classrooms All Young Children Need Patricia M. Cooper,2010-10-21 Teacher and author Vivian Paley is highly regarded by parents educators and other professionals for her original insights into such seemingly everyday issues as play story gender and how young children think She is also recognized for exposing racism and exclusion in the early childhood classroom Surprisingly until now no one has attempt

### **The Importance of Listening to Children and Adolescents**

Silvana Calaprice,Antonella Nuzzaci,2019-01-08 This volume highlights the importance of teaching adults to listen to children and adolescents illustrating the principles and contexts that define young people s tangible and intangible rights and ideals It reflects on the difficulties that impede the implementation of children and adolescents right to be listened to in line with guidelines linked to national and international policies regarding children and adolescents The book provides examples of how educational research can be used as a resource for the development of educational processes and of educational systems that put listening and participation at the heart of educational culture as instruments of intervention and a possible component of social transformation

### **The Kindergarten-primary Magazine** Bertha Johnston,E. Lyell Earle,1897

**Kindergarten Primary Magazine** ,1897 **On Landscapes** Susan Herrington,2013-12-19 There is no escaping landscape it s everywhere and part of everyone s life Landscapes have received much less attention in aesthetics than those arts we can choose to ignore such as painting or music but they can tell us a lot about the ethical and aesthetic values of the societies that produce them Drawing on examples from a wide range of landscapes from around the world and throughout history Susan Herrington considers the ways landscapes can affect our emotions our imaginations and our understanding of the passage of time On Landscapes reveals the design work involved in even the most naturalistic of landscapes and the ways in which contemporary landscapes are turning the challenges of the industrial past into opportunities for the future Inviting us to thoughtfully see and experience the landscapes that we encounter in our daily lives On Landscapes demonstrates that art is all around us
