Walkup,2009 To teach the rigorous skills and knowledge students need to succeed in future college entry courses and workforce training programs education stakeholders have increasingly called for more rigorous curricula instruction and assessments Identifying the critical attributes of rigor and measuring its appearance in curricular materials is therefore fundamental to progress in this area By superposing two widely accepted models for describing rigor Bloom s Taxonomy of Educational Objectives and Webb s Depth of Knowledge DOK model this article defines cognitive rigor CR and introduces the CR matrix for analyzing instruction and enhancing teacher lesson planning Two large scale collections of student work samples analyzed using the CR matrix are presented illustrating the preponderance of curricular items aligned to each cell in the matrix Educators should use the cognitive rigor matrix to align the content in their curricular materials to the instructional techniques used in classroom delivery Contains 3 tables and 1 figure

Becoming an Outstanding English Teacher Kate Sida-Nicholls,2016-08-25 Becoming an Outstanding English

Teacher supports all English teachers in offering a wide range of approaches to teaching and learning that will stimulate and engage students in studying English. It offers practical strategies that can be used instantly in English lessons. The topics offer examples for questioning, differentiation and assessing progress. Some of the ideas have also been incorporated into lesson plans using texts from the revised English National Curriculum. With a strong focus on creativity and engagement, this book covers promoting thinking and independent learning skills in students, methods to check learning rather than doing in the classroom, techniques for personalising learning for students, creating an environment for behaviour for learning. Fully up to date with the National Curriculum guidelines and packed with practical strategies and activities that are easily accessible, this book will be an essential resource for all English teachers who are aiming to deliver outstanding teaching and learning continuously in their classrooms.

**Online Professional Development and Teacher Capacity to Incorporate English Language Arts Assignments Based on Levels 3 and 4 of Webb's Depth of Knowledge Framework** Katrina Denise

Taylor, 2021. The purpose of this study was to determine the existence of a relationship between online professional development and English language arts (ELA) teachers' instructional practices. Professional development is commonly utilized to develop teachers' pedagogy, but in-person sessions do not meet all teachers' needs. Mixed methods research was utilized to examine relationships between teachers' ability to create and incorporate assignments based on levels 3 or 4 of Webb's Depth of Knowledge (DOK) Framework, self-efficacy regarding teaching higher order thinking skills, and online professional development on those topics. The results indicated a moderate positive directional relationship between these components. The only statistically significant relationship existed between teachers' incorporation of tasks from Webb's DOK levels 3 or 4 and their online professional development performance. *CSE Report*, 2006. **Journal for Research in Mathematics Education**, 2014.
