version 2.0 of the Cisco Networking Academy Program curriculum. The author reinforces the material in the two courses to help you to focus on important concepts and to organize your study time for exams. This book covers the overall security process based on security policy design and management with an emphasis on security technologies, products, and solutions. The book also focuses on security appliance and secure router design, installation, configuration, and maintenance. The first section of this book covers authentication, authorization, and accounting (AAA) implementation using routers and security appliances and securing the network at both Layer 2 and Layer 3 of the OSI reference model. The second section of this book covers intrusion prevention system (IPS) implementation using routers and security appliances and virtual private network (VPN) implementation using routers and security appliances. New and improved features help you study and succeed in this course.
