4-Cylinder Cb350f & Cb400f Workshop Manual Floyd Clymer,2023-10-20 114 pages and more than 340 illustrations and charts size 8 25 x 10 75 inches This Workshop Manual is a faithful reproduction of the original Honda Factory Manual for the CB350F and the CB400F four cylinder models manufactured from 1972 through 1977 The original CB350F released in 1972 ultimately morphed into the 1975 CB400F and the original base CB350F workshop manual was expanded by the factory to include a supplement for the CB400F model Beginning in 1968 and extending through the 1975 model year the common K suffix often but not always changed on an annual basis K0 or occasionally F0 was normally used to indicate the first model in the series with updated versions identified as either K or F 1 2 3 etc While the alpha number designations continued in use outside the USA through 1978 in September 1973 American Honda adopted a year identifier within the model number for example a CB400F 76 would be a 1976 USA model but in most other countries that same model would be identified as either a CB400K2 or CB400F1 Setting this potential for confusion aside we can state that this manual covers the entire 1972 through 1977 range of 350cc and 400cc four cylinder models Finally please note that the text in the original Honda Factory Workshop Manual was translated from Japanese into English Consequently some of the phrasing grammar punctuation and word usage may be subtly different from that commonly used in the English language However the information as presented is readily understandable In addition while we have done our best to identify any anomalies errors and incorrect spelling that may have occurred during the original translation process we are certain that we will have missed one or two and we request your indulgence in ignoring them **Honda CB 350 & 500 Fours Owners Workshop Manual** Mark Reynolds,1974-01-01

The original CB500 released in 1971 ultimately morphed into the 1974 CB550 and the 1975 CB550F Super Sport. The original base 500cc manual was expanded by the factory to include the CB550 and subsequently updated with supplements for the later models. It covers the 1971 1973 K0 K1 a CB550 76 would be a 1976 USA model but in most other countries that same model would be identified as a CB550K2. Setting this potential for confusion aside we can state that this manual covers the entire 1971 through 1978 range of 500cc and 550 cc four cylinder models. After his visit to Japan in 1961 Floyd Clymer published *The Complete Catalog of Japanese Motor Vehicles* ISBN 9781588502209. Based on his experiences during that visit Floyd also anticipated the need for repair manuals for those Japanese motorcycles that were just starting to be imported into the USA. Yamaha 1958 Honda 1959 Suzuki 1963. The predominance of the Floyd Clymer Japanese motorcycle manuals were either reprints or compilations of the factory publications which today makes them more desirable than the current aftermarket manuals.
