

## Chapter 10: Endocrine System Anatomy and Physiology

### Endocrine System Glands

### Cell Secretion Types

- **Autocrine**
  - released by cells and have a local effect on same cell type
  - Example - eicosanoids
- **Paracrine**
  - released by cells that affect other cell types in close proximity
  - Example - somatostatin
- **Neurotransmitter and Neuromodulators**
  - secreted by nerve cells
  - Example - nervous system function
- **Hormones and Neurohormones**
  - secreted into blood and bind to receptor sites
  - Example - epinephrine and insulin

### Endocrine System Function

- (1) Metabolism
- (2) Control of Food Intake and Digestion
- (3) Tissue Development
- (4) Ion Regulation
- (5) Water Balance
- (6) Heart rate and Blood pressure regulation
- (7) Control of Blood Glucose and other nutrients

- (8) Control of Reproductive Functions
- (9) Uterine Contraction and Milk Release
- (10) Immune System Regulation

- The target tissues have receptors for a specific hormone.
- Hormones produce a particular response in the target tissue

### Characteristics

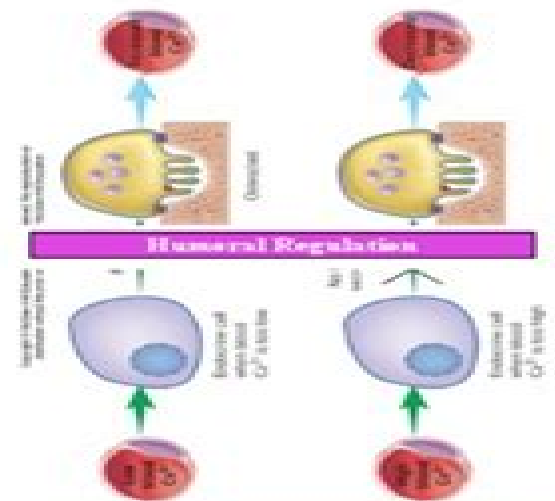

- **Water-soluble hormones:**
  - includes proteins, peptides, amino acids
  - most common
  - Examples - growth hormone, antidiuretic, prolactin

### Types of Hormones

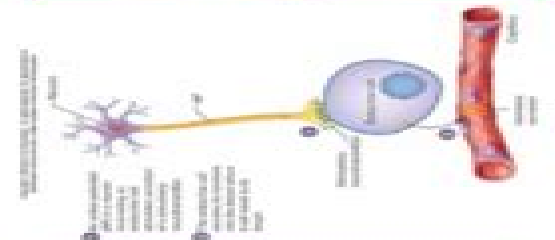

- **soluble hormones** bind to intracellular receptors
    - eicosanoids
  - Examples - LH, FSH, androgens
- Blood-borne chemicals can directly stimulate the release of some hormones.
  - These chemicals are referred to as **humoral stimuli** because they circulate in the blood.

### Control of Hormone Release

- Hormone release can also be under **neural control**.
- Following action potentials, neurons release a neurotransmitter into the synapse with the cells that produce the hormone.
- Hormone release can also be controlled by other hormones.
- It occurs when a hormone is secreted that, in turn, stimulates the secretion of other hormones.
- The same three types of stimuli (humoral, neural, and hormonal) can stimulate or inhibit hormone release.

### Neural Regulation

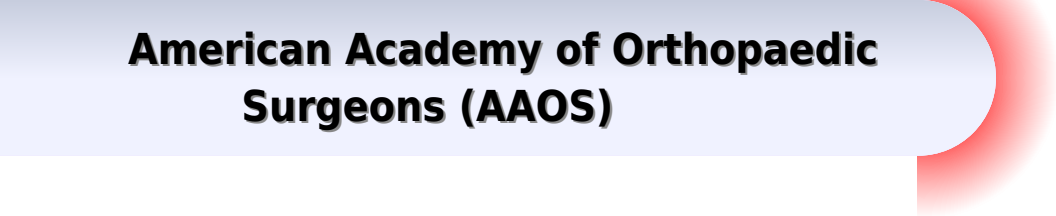

### Inhibition of Hormone Release

- **Humoral inhibition** of hormone release generally involves the actions of companion hormones.
- Usually each of the companion hormones performs an opposite function.
  - For example, to raise blood pressure, the adrenal cortex secretes the hormone aldosterone in response to low blood pressure, but to lower it the heart atria secrete atrial natriuretic peptide.
  - They work together to maintain homeostasis of blood pressure.
  - Neurons inhibit targets just as often as they stimulate targets.

# Chapter 10 Endocrine System Packet

**American Academy of Orthopaedic  
Surgeons (AAOS)**

## Chapter 10 Endocrine System Packet:

Nancy Caroline's Emergency Care in the Streets Advantage Package (Canadian Edition) American Academy of Orthopaedic Surgeons (AAOS), Paramedic Association of Canada, Nancy L. Caroline, Russell MacDonald, 2020-03-06 Navigate 2 Advantage Access unlocks a complete Audiobook Study Center homework and Assessment Center and a dashboard that reports actionable data Experience Navigate 2 today at [www.jblnavigate.com](http://www.jblnavigate.com) 2 In the early 1970s Dr Nancy Caroline developed the first paramedic textbook and transformed paramedic education Today the Paramedic Association of Canada is proud to continue this legacy delivering world class education to future paramedics in Canada and around the globe The Eighth Edition offers cutting edge evidence based content that aligns with current guidelines standards and literature from medical authorities across the spectrum of emergency medicine from cardiac care to stroke to wilderness medicine to trauma Current State of the Art Medical Content Based on the National Occupational Competency Profiles and the latest CPR ECC Guidelines the Eighth Edition offers complete coverage of every competency statement with clarity and precision in a concise format that ensures comprehension and encourages critical thinking Detailed explanations of current practice and treatment provide an unparalleled clinical foundation for a successful career as a paramedic and beyond Relevant medical concepts are presented to ensure students and instructors have accurate insightful interpretation of medical science as it applies to prehospital medicine today Application to Real World EMSThrough evolving patient case studies in each chapter the Eighth Edition gives students real world scenarios to apply the knowledge gained in the chapter clarifying how the information is used to care for patients in the field and pushing students to engage in critical thinking and discussion Essential skill content is portrayed in detailed steps that are the ideal complement to the National Occupational Competency Profiles A Foundation for LifeThe Eighth Edition provides a comprehensive understanding of anatomy physiology pathophysiology medical terminology and patient assessment Clinical chapters discuss application of these key concepts to specific illnesses or injuries using context to refine and solidify the foundational knowledge Dynamic Technology SolutionsNavigate 2 unlocks engaging tools that enable students and instructors to chart a swift path to success The online learning resources include student practice activities and assessments and learning analytics dashboards The online offering also includes the following for every chapter Ready for Review chapter summariesVital Vocabulary chapter definitionsAssessment in Action scenarios with multiple choice questionsPoints to Ponder scenarios to consolidate information and promote critical thinking

**Health: Teacher resource package** Linda Brower Meeks, 1987 Nancy Caroline's Emergency Care in the Streets Essentials Package American Academy of Orthopaedic Surgeons (AAOS), 2022-07-29 Nancy Caroline's Emergency Care in the Streets Essentials Package includes ContentInstructionStudent Learning MaterialsTextbookInstructor GuidePractice ActivitiesAudiobookAssessmentsAnalytics Slides Only available when assigned by instructors Nancy Caroline's Emergency Care in the Streets Ninth Edition is the newest evolution of the premier paramedic education training program This
