

PURPOSE

To identify the criteria to be applied when accepting patients for charity care.

POLICY

Patients without third-party payer coverage and who are unable to pay for medically necessary care will be accepted for charity care admission, per established criteria.

Organization's Name will establish objective criteria and financial screening procedures for determining eligibility for charity care.

The organization will consistently apply the charity care policy.

PROCEDURE

1. When it is identified that the patient has no source for payment of services and requires medically necessary care/service, the patient must provide personal financial information upon which the determination of charity care will be made.
2. A social worker, as available, will meet with the patient to determine potential eligibility for financial assistance from other community resources.
3. The Executive Director/Administrator, with the appropriate program director, will review all applicable patient information, including financial declarations, physician (or other authorized licensed independent practitioner) orders, initial assessment information, and social work notes to determine acceptance for charity care.
4. All documentation utilized in the determination for acceptance for charity care will be maintained in the patient's billing record.
5. When financial declarations reveal the patient is able to make partial payment for services, the Executive Director/Administrator, with the appropriate program director, will determine the sliding-fee schedule to be implemented.
6. The revised sliding-fee schedule will be presented to the patient for agreement and signature.
7. After acceptance for charity care, the patient's ability to pay will be reassessed every 60–90 days.
8. When the organization is unable to admit the patient or to continue charity care, every effort will be made to refer the patient for appropriate care/service with an alternate provider.
