## *Chapter 10*

### PP&E:

- Assets of durable nature, referred to as plant assets or fixed assets
  - o Used in the operations of the business
  - o Long-term in nature and usually depreciated
  - o Possess physical substance
- When first bought the entire cost is placed on the balance sheet
  - o As it gets used we depreciate except for land
- Only PP&E recorded in financial statements should be that used in operations
  - o PP&E acquired for future speculation of expansion is an *investment*
  - o PP&E held for resale should be classified as *inventory*
- Recorded at *fair value* when purchased

### *What is included in the amount when first acquired?*

- Cost to obtain asset
- Cost to bring it to the desired location
- Cost to bring up to condition for *its intended use*

- The process of recording these costs into the balance sheet asset accounts in PP&E is called capitalization

-expenditures in a company can either be

1. expensed directly to the income statement or
2. capitalized (recorded into a balance sheet asset account) (I.e. PP&E, inventory, supplies)

### *For PP&E*

- The amount capitalized becomes the historical cost
- PP&E stays at historical cost—we do not apply any subsequent fair value market re-measurement unless it is permanently impaired

### Land

- Purchase price
- Closing costs (title to the land, attorney's fees, and recording fees)
- Costs of grading, filling, draining, and clearing (to get it ready for its intended use)
- Costs of demolishing any structure on the land less salvage value (to get it to its intended use)
- Assumption of any liens, mortgages or encumbrances on the property
- Additional costs that have *indefinite life* (no need to

### Land Improvements:

→ Improvements with limited lives

- Costs for driveways, walkways, fences, parking lots
- Recorded in land improvements account
- Limited life—depreciated

### Equipment

→ Includes all expenditures incurred in acquiring the equipment and preparing it for use

- Purchase price
- Freight and handling charges
- Insurance on the equipment while in transit
- Cost of special foundations if required
- Assembling and installation costs
- Costs of conducting trial runs
- *Limited life: Depreciated*

### Buildings

→ includes all costs related directly to the acquisition or construction

- If acquired:
  - o Acquisition price and related costs
- If constructed:
  - o There are several costs that can be capitalized
- *Limited Life: Depreciated*

### Constructed Assets:

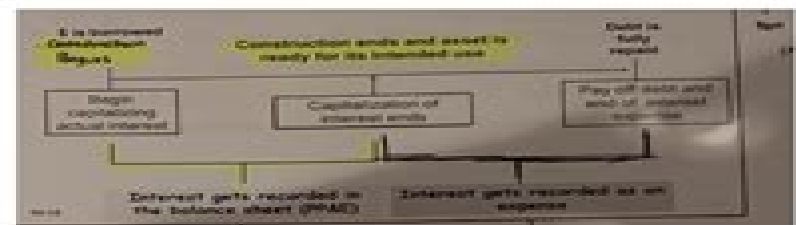

→ There are special challenges in figuring out what to include as a part of construction costs

#### ■ Costs Typically include

- o Direct Costs: Materials and Labor
- o Indirect Costs (overhead costs): utilities, indirect materials, indirect labor, property taxes, permits, fees
- o If the construction project is financed through borrowings, interest paid on the loans are usually included in the cost

### Interest Costs Incurred as a result of financing the Construction of Assets:

→ Only capitalize until the asset being constructed is ready for intended use—the capitalization eventually makes it to income statement through depreciation
