New edition, revised ... live of a Peace Corps volunteer in Libya in the late 1960s including the first American account of living through the revolution that brought Gaddafi to power The author moves from campus protests at the University of Washington in the spring of 1968 to Peace Corps training in Utah and the Navajo Nation in New Mexico to living and teaching in an isolated village in Libya to a European summer vacation to the revolution that led to charges that Peace Corps volunteers were CIA agents to returning to the U S in October 1969 to witness the anti war moratorium on the Capital Mall in Washington D C The heart of the story is the author s own evolving journey as a teacher during which time he began to question both the official curriculum of English instruction and the broader purposes of teaching for liberation This is also a story about the author s education and re education in Libya as he struggles to learn the rules of everyday life including the rules of gender and sexuality as a stranger in the village and as he begins to see and appreciate the world through somewhat different eyes Part of his education involved a reconstruction of the history of the village in terms of wave after wave off European colonizers from the time of the Romans to the Italian fascist colonizers to the liberation of the village by the British chasing Rommel s troops across the desert to its decline renaming and reappropriation as an Arab village The author brings all this up to the late 1960s by describing the role of U S foreign policy in the development of Libya in league with global oil and with the support of the largest air base outside the continental U S near Tripoli This is finally a coming of age story about a young man who was desperately looking for something to believe in and live for and more pragmatically looking for a way out of the draft and Vietnam and out of an America that seemed to be slipping into collective madness It is a story like all coming of age stories about setting off on a great youthful journey of self discovery and a rekindling of the human spirit Audiences for this book include college students undergraduate and graduate in education cultural studies and Arabic studies former Peace Corps volunteers and those interested in the Peace Corps and its history readers interested in recent developments in Libya looking for some historical perspective on how Gaddafi came to power and why the revolution turned anti American and all those interested in a first hand account of what America was like at the end of a decade ushered in with Kennedy idealism and the Peace Corps A powerful story of exile and a search for home Volunteers of America is the Odyssey of a generation Awakening to a world in flames inspired by visions of liberation erupting everywhere Dennis Carlson heard the chords of freedom echoing all around him and faced the question Which side are you on Here is Carlson s poignant and still timely answer to that question Bill Ayers author of Fugitive Days and many other books on education Distinguished Professor of Education University of Illinois Chicago Black's Guide to London and Its Environs Ascott Robert Hope Moncrieff,1902
