**Open City** Tim Rieniets, Jennifer Sigler, Kees Christiaanse, 2009 Open City is the theme of the 4th International Architecture Biennial Rotterdam Open City Designing Coexistence is the publication to accompany this international event which will be held in Rotterdam from 24 September 2009 to 10 January 2010 The book demonstrates the crucial role that architecture and urban design can play to enable access and facilitate coexistence to stimulate conditions for an Open City Accessible city Today the Open City is a tenuous notion as our cities grow and diversify social and cultural groups struggle to coexist and make conflicting demands on the city's resources For many the opportunities the city promises are scarce or unattainable How can our cities provide access for all in this millennium Part 1 Dimensions The Open City does not have latitude or longitude but it exists in our imagination In Part 1 writers from different disciplines sociology ethnography geography law history economy and urban design map various theoretical dimensions of the Open City and consider the global forces that challenge it Part 2 Situations The Open City is not a place but a condition It has no masterplan each context requires a distinct approach Part 2 of this book documents work by international architects urban designers and activists who were asked to initiate and implement projects for an Open City in urban situations that are currently in flux
