Surrealism and Ecology Anne Marie Butler ,Donna Roberts,Iveta Slavkova,2026-01-06 Surrealism and Ecology is the first volume to consider the intersections of these two fields It addresses the contribution of the avant gardes in thinking about the relationship of humans with their environment in the context of massive environmental upheaval in the twentieth century This volume explores the significant role of Surrealist artists and writers within the history of critical thinking about nature and environment over the last hundred years It approaches ecology both as a mode of thinking about the many interconnections of life and as a way of experiencing and knowing the world The relationship of humans with their environment is of paramount significance within contemporary discourse and the contribution of the historical avant gardes to this topic remains largely underexplored In addressing this gap the book presents a diverse selection of analyses of the ways in which the Surrealists have thought about and represented nature and the human place within it It emphasises how Surrealism s interventions in connecting seemingly distinct domains of thought and phenomena can be understood as relevant to more recent developments in the practice of ecological thought Surrealist practices and the academic field of Surrealism studies are broad in scope and include not only visual art but also poetry and literature film philosophy exhibition design and experimental practice This volume includes contributions from established and developing scholars working across disciplines and locations who address such varied practices and engage with analyses from multiple perspectives The international and trans Atlantic history of Surrealism is well represented in this book with over half the texts exploring the work of European Surrealists in exile during the Second World War or the art and environmental and political activism of Surrealists in the Caribbean and throughout the Americas *Le Correspondant* ,1899 *Gazette des beaux-arts* ,1892
