Hill Oglesby,M. J. Altenhofen,1969 the objective of this study is to examine prevailing rural design standards to determine  
their economic justification This would evaluate in depth the cost of some of the most significant design practices for example  
roadway and shoulder width and surfacing type Resulting user benefits such as operating accident and time savings would be  
weighed against the cost of individual features In addition to the analysis of the user benefit relationships the economic and  
social consequences to local residents businesses and communities should be studied and a suitable means of including them  
in the reckoning of warranted levels of improvement should be found      Public Works Manual ,1986      **Computer**
