Romance in the Digital Game Amy Brierley-Beare, 2025-09-30 In the last decade the popularity of romance in the AAA game has exploded It has become an expectation for major releases and a regular object of fan obsession High profile games such as Baldur's Gate III 2023 Cyberpunk 2077 2020 and Starfield 2023 prominently feature in game romance in their multimillion dollar promotional campaigns Moreover rampant speculation by gaming journalists and fans about who is romanceable will regularly accompany the announcement of a new title However representations of romance have long been under examined and vaguely defined by scholars This leaves important questions unanswered How does the digital game mediate cultural attitudes towards love and sex How can we classify representations of romance in the digital game Does romance simply replicate existing hegemonies surrounding gender and sexuality or does it offer a space for transgressive play This book positions optional romance in the AAA game as a central object of analysis Based on the close analysis of some of the most commercially and culturally significant games of the last 30 years like Grand Theft Auto IV 2008 the Mass Effect series 2007-21 and the Elder Scrolls series 1994-2024 it is the first full length monograph to effectively and comprehensively categorise how mainstream gaming asks its audience to engage with romance It interrogates the idiosyncrasies of romance in the popular games to provide fresh insights into messaging surrounding normative social understandings of love sex and intimacy By theorising four representational categories of romance Limerent Physical Domestic and Ludic Automatic Love introduces a new theoretical framework for scholars to understand romance gender and sexuality in gaming
