**Boletín del Seminario de Estudios de Arte y Arqueología** Universidad de Valladolid. Seminario de Estudios de Arte y Arqueología, 1967 *Spanish as a Contact Language* Israel Sanz-Sánchez, 2025-01-31 Languages do not exist beyond their speakers but the history of individual languages has often been told as if they had a life of their own emerging from other languages growing and sometimes dying When applied to Spanish this story line commonly begins in spoken Latin with the language taking shape in medieval Spain before spreading beyond Europe in the colonial period This book proposes a new take on this narrative Instead of seeing Spanish as a linguistic entity with linear development what would its history look like if we think of it as a centuries long constellation of contact events *A History of Spanish as a Contact Language* revisits the evolution of Spanish from the perspective of the ecology of language centring speakers as the only historical agents of language transmission and change Taking the speakers vantage point opens up exciting possibilities to rethink what Spanish is how it has changed and who has played a role in this process

*Relating Continents* Romana Radlwimmer, 2023-10-04 During early modern European expansion America emerged as dynamic meeting ground continuously forging multidirectional global encounters *Relating Continents* dismisses the semantics of encounter which in the politics of naming euphemistically substitutes invasive violence but invests in the notion's dimension as an enactment of literary cultural and social relations fusing people goods texts artifacts ideas and senses of belonging Understanding the practice of relating as both connecting and narrating this anthology investigates the linking of continents in Romance literary and cultural history as well as the tales of entanglement produced in the process The contributors revisit the worldwide impact of distant or in person negotiations between conquerors and local actors they assess how colonial interventions shift hemispheric native networks and they examine the ties between America Africa and Asia By doing so they prove the global constitution of early modern Spanish and Portuguese American literatures their historical and cultural contexts and their long lasting legacies
