

## Warrant

When a paper lacks a certain perspective, more research would be beneficial to prove its claims.

## Grounds

In their paper, Cummings et al. discuss how email communications are an inferior means of maintaining personal relationships. However, their study does not account for technological, demographic, or modality limitations.

## Claim

Additional research on computer-mediated communication needs to be conducted to better understand how online interactions affect relationships.

**Claims Reserving in General Insurance** David Hindley, 2017-10-26 This is a comprehensive and accessible reference source that documents the theoretical and practical aspects of all the key deterministic and stochastic reserving methods that have been developed for use in general insurance. Worked examples and mathematical details are included along with many of the broader topics associated with reserving in practice. The key features of reserving in a range of different contexts in the UK and elsewhere are also covered. The book contains material that will appeal to anyone with an interest in claims reserving. It can be used as a learning resource for actuarial students who are studying the relevant parts of their professional bodies examinations as well as by others who are new to the subject. More experienced insurance and other professionals can use the book to refresh or expand their knowledge in any of the wide range of reserving topics covered in the book.

*Digital Libraries for Open Knowledge* Antoine Doucet, Antoine Isaac, Koraljka Golub, Trond Aalberg, Adam Jatowt, 2019-09-09 This book constitutes the proceedings of the 23rd International Conference on Theory and Practice of Digital Libraries TPDL 2019 held in Oslo, Norway, in September 2019. The 16 revised full papers, 12 short papers and 18 poster papers presented were carefully reviewed and selected from 75 submissions. The general theme of TPDL 2019 was Connecting with Communities and so the papers attempt to facilitate establishing connections and convergences between diverse research communities such as Digital Humanities, Information Sciences and others that could benefit from ecosystems offered by digital libraries and repositories. To become especially useful to the diverse research and practitioner communities, digital libraries need to consider special needs and requirements for effective data utilization, management and exploitation.
