It goes beyond the usual narrative of the party's Hindutva politics to explain how under Narendra Modi the party reshaped the Indian polity using its own brand of social engineering. According to the findings of this book, this reconstruction was cleverly powered by new caste coalitions, the claim of a new welfare state that focused on marginalised social groups and the making of a women voter base. Based on data from three unique indices: the Mehta Singh Social Index which studies the caste composition of Indian political parties, the Narad Index which calculates communication patterns across topics and audiences, and PollNiti which connects and tallies hundreds of political and economic datasets. The New BJP is full of startling insights into the way both the party and the country function. Previously untapped historical records, exclusive interviews with party leaders, and comprehensive reportage from across India provide a fresh understanding of the BJP's growth areas including the Northeast and south India. A lucid and objective study of the BJP and India today, this book will be useful to researchers, journalists, students, activists, and general public alike.
