Abundant sample documents show how to apply the principles being discussed. This is the only book that offers business communication experience in every chapter through real-world on-the-job simulations featuring actual companies and real-world business documents. These simulations provide a unique opportunity for you to practice and sharpen your business communication problem-solving skills. Topics include understanding business communication, the three-step writing process, letters, memos, e-mail, and other brief communications, reports, and oral presentations, and resumes and interviewing for employment. An essential and useful tool for anyone interested in developing better business communication skills, human resource personnel, managers, and office workers will find this interactive book especially helpful. **ENGLISH LANGUAGE**

**LABORATORIES** KONAR, NIRA, 2011-07-30 Today acquiring English language skills has become so essential, especially for those who are looking for new jobs in reputed organizations as well as for the practising professionals. Many engineering students, even though they have adequate knowledge of their subject, are unable to express themselves well in English. Taking this into account, engineering colleges/institutes have introduced exclusive English Language Laboratories where students are drilled in the practical aspects of the English language. This compact and comprehensive book is a step-by-step practical guide to students, telling them how to prepare technical reports and how to acquire the basic communication skills: listening, speaking, reading, and writing. The book deals with conversation, situational dialogues, and role plays and Group Discussions (GDs). It also gives detailed discussion about Interviews: step-by-step preparation, practical and psychological preparation, the dos and don'ts for interview, besides dealing with different kinds of interviews: telephonic, videoconferencing, and others. In addition, the text stresses the importance of researching the organization and salary negotiations. Finally, the book shows the students how to make powerpoint presentations (PPTs): the structure of presentation and using audio visuals. This activity-based, skill-oriented, learner-centred book is designed according to the WBUT syllabus on Technical Report Writing and Language Laboratory Practice for the B.Tech students. However, it would be equally useful for B.Tech/B.E. students across the country. **DISTINGUISHING FEATURES** A practical and student-friendly text, the stress being on the functional aspects of the language and various activities for acquiring the language. Gives the Methodology of conducting activities such as GDs, Interviews, and Presentation. Provides model GD topics and the step-by-step process of making PPTs.
