Business Studies Feb March 2015:

China's Offensive in Europe Philippe Le Corre, Alain Sepulchre, 2016-05-17 A portrait of China's new economic passion toward Europe. For years, China's international investment interests focused on a search for natural resources in Africa, Asia, and Latin America. Recently, China's focus has shifted to Europe as well as the United States and to new fields as diverse as real estate, energy, hospitality, transportation, and heavy industry. Chinese foreign investment is expected to grow throughout Europe in the years to come. For instance, the financial crisis centered in Greece and the fall of the euro have helped China, and some of its corporations, create a new partnership within the European Union, working to expand the country's power through finance and infrastructure. China's Offensive in Europe studies the trends, sectors, and target countries of Chinese investments in Europe. It looks at cases of outbound investment trajectories and journeys by some key Chinese private and state-owned companies. It also takes a look at European perceptions of China, a country with a very different history and very different traditions from the Western world. Philippe Le Corre and Alain Sepulchre examine how China's presence in Europe can serve as a benchmark to other developed economies, especially the United States, which is also seeing a rise in Chinese investments.

Foreign Mining Investment Law Richard W. Roeder, 2016-06-28 This work analyzes and compares the legal framework for foreign investments in the mining sector in Australia, South Africa, and Colombia. The admission of foreign investments, corporate structure requirements, ownership of minerals and mineral rights, mining licenses, land access, performance requirements, distribution of profits, and the tax regime, repatriation of profits, national and international dispute resolution mechanisms, and the question of the Social License to Operate (SLO), Corporate Social Responsibility (CSR) policies are discussed in detail. The work concludes with an outlook on the future regulation of foreign mining investments and finally suggests the development of an International Mining Investment Law.
