Handbook on Hybrid Organisations David Billis, Colin Rochester, 2020-02-28 Hybrid Organisations that integrate competing organisational principles have become a preferred means of tackling the complexity of today's societal problems. One familiar set of examples are organisations that combine significant features from market public and third sector organisations. Many different groundbreaking approaches to hybridity are contained in this Handbook which brings together a collection of empirical studies from an international body of scholars. The chapters analyse and theorise the position of hybrid organisations and have important implications for theory practice and policy in a context of proliferating hybrid forms of organisation.

The G3 Battle Rifle Leroy Thompson, 2019-05-30 During the Cold War the G3 was one of the world's pre-eminent battle rifles. Developed in France and Spain after 1945, the rifle was produced by the German arms manufacturer Heckler & Koch. Adopted by more than 40 countries and produced on licence by many more, it was widely employed during colonial wars in Africa, insurgencies in Latin America and conflicts in the Middle East, but perhaps its widest use was in the Iran-Iraq War. Variants of the G3 have also seen substantial usage among Special Forces, including Britain's Special Boat Service and the US Navy SEALs. Semi-automatic versions, especially the HK91 and HK93, remain popular in the United States, and the G3-derived HK11 and HK21 family of light machine guns have also been widely adopted by military and law enforcement units across the world. Fully illustrated with specially commissioned artwork, this study examines one of the iconic weapons of the Cold War era.

Sustainable Peace in Northeast Asia Yong-Shik Lee, 2023-09-05 Sustainable Peace in Northeast Asia examines the causes of lasting and complex tensions in the region from underlying political, historical, military and economic perspectives, discusses their historical development and political/economic implications for the world, and explores possible solutions to build lasting peace. The book is unique in that it approaches the topic from the historical perspective of each constituent country in the region. Major global powers such as the United States and Russia have also closely engaged in the political and economic affairs of this region through a network of alliances, diplomacy, trade and investment. The book also discusses the influence of these external powers over the crisis, their political and economic objectives in the region, their strategies, and the dynamics that their engagement has created. Both South Korea and North Korea have sought reunification of the Korean peninsula, which will have a substantial impact on the region. The book examines its justification, feasibility and effects for the region. The book discusses the role of Mongolia in the context of the power dynamics in Northeast Asia. A relatively small country in terms of its population, Mongolia has rarely been examined in
