Why are quotations in academic papers taken from only secondary sources problematic? Sandra Intemann, 2016-07-15 Essay from the year 2016 in the subject Philosophy Practical Ethics Aesthetics Culture Nature Right grade 1 3 Leuphana Universit t L neburg Wissenschaftsethik language English abstract To find out whereas quotations in academic articles and or monographs solely out of secondary and not primary sources are problematic from the perspective of academic ethics in general and business ethics in particular one will first have a closer look on the key terms An academic article is a scientific text published in a scientific journal and supervised by other scientists A monograph is a scientific text about a single subject by one author Sources are distinguished in primary and secondary sources primary sources are scientific research results which are published at first hand containing Secondary sources refer to a primary source which was published by another author and not collected by the author himself For an evaluation of the use of the sources in a business or academic environment ethical standards and moralities are used Within academic ethics sscientists have the duty to act responsibly and to define moralities for their practice and the way they do research and publish their results On the other hand the business ethics defines right or wrong behaviour in a business context To discuss whereas the use of secondary sources is problematic one will analyse the involved parties which are the users of the sources the author of the primary source the author of the secondary source and the scientific community Within all parties involved in the problem there is always a least privileged party according to John Rawls On the one hand using solely sources could be interpreted as one kind of plagiarism even if the source is cited correctly Further the readers do not make an own effort into research because she takes the easy way out using solely secondary sources The readers have to wonder whether it is legitimate to rely on the author of the secondary source that he summarized analysed etc the primary source correctly It would have a massive negative impact on academic and business ethics if the author of the secondary source made a mistake in summarizing analysing or wrong conclusion drawing As a result wrong information would be used for following work in business areas or research in academic areas On the other hand the access to primary sources may be difficult or even not possible so the use of a secondary source is the only way to use the information Further one has to wonder whether it is it legal to intervene to solely use secondary sources as it violates the copyright law

economics Business Ethics Corporate Ethics grade 1 7 Leuphana Universit t L neburg language English abstract The aim of this essay is to analyze to what extend quotations in academic articles and or monographs that solely exist out of secondary and not primary sources are problematic from the perspective of academic ethics in general and business ethics in particular Despite being an accepted tool in academic writing and research the excessive use of secondary sources resembles the exploitation of foreign efforts in the procurement and analysis of primary sources The research method of this essay is based on an extensive literature research to work out central aspects of academic ethics being relevant for the creation of academic articles and monographs as products of scientific communities Furthermore different philosophical approaches are consulted to gain a comprehensive understanding of the business ethics approach and its fundamental pillars The analysis comes to the conclusion that citations solely from secondary sources and in the absence of a comprehensive confrontation with primary literature harm central values introduced by the European University Institute as the cornerstones of integrity and good scientific practice From a business ethics point of view the conduct violates rules of proportion and endangers the beneficance of scientific communities as it represents an act of selfishness to the own self interest WPA, Writing Program Administration ,2007 **Children's Bureau Publication** United States.
