Economic Paper1 Nsc Feb March2015

Albert A Gayle

Economic Paper1 Nsc Feb March2015:

Seeds of Stability Ethan B. Kapstein, 2017-05-18 An original analysis of American interventions in the developing world asking what can be done to reduce their economic and human cost Kapstein shows the conditions under which American policies are most likely to produce political stability and when they are most likely to fail *The End of Umno? Essays on Malaysia's Former Dominant Party* Bridget Welsh, 2022-12-06 What is the future of Malaysia's former dominant party the United Malays National Organisation or UMNO With the loss of government in the May 2018 General Election GE14 after 61 years in government the party faces a different more uncertain future It is grappling with its new role in the national political opposition and continued questions about the leadership of former prime minister Najib Tun Razak This collection is an expanded edition of the original 2016 *The End of UMNO* It includes the original five essays including the foreword by current Foreign Minister in the Pakatan Harapan government and former UMNO Supreme Council member Saifuddin Abdullah as well as new post GE14 epilogue essays by each of the contributors John Funston Clive Kessler James Chin and Bridget Welsh all prominent and established scholars studying Malaysian politics It also includes a new foreword by veteran UMNO leader Tengku Razaleigh Hamzah who contested for the party presidency in the June 2018 party elections The contributors in this collection study developments in Malaysia's dominant party the United Malays National Organisation UMNO and discuss the question of whether UMNO is in fact at an end The answers to its future lie in part with a better understanding of its past and present The authors draw attention to issues of party identity leadership membership governance institutional change party financing internal divisions and its relations with different communities and the public at large The new and expanded edition draws attention to the factors that contributed to UMNO's loss of government in GE14 and potential steps ahead Not only does this book fill an important gap in the scholarly research on UMNO this book offers different perspectives on the party's contemporary challenges This book aims to contribute to understanding broaden public debate and stimulate further research on arguably one of Malaysia's most important political institutions Oil Money David M. Wight, 2021-07-15 In *Oil Money* David M Wight offers a new framework for understanding the course of Middle East US relations during the 1970s and 1980s the transformation of the US global empire by Middle East petrodollars During these two decades American Arab and Iranian elites reconstituted the primary role of the Middle East within the global system of US power from a supplier of cheap crude oil to a source of abundant petrodollars the revenues earned from the export of oil In the 1970s the United States and allied monarchies including the House of Pahlavi in Iran and the House of Saud in Saudi Arabia utilized petrodollars to undertake myriad joint initiatives for mutual economic and geopolitical benefit These petrodollar projects were often unprecedented in scope and included multibillion dollar development projects arms sales purchases of US Treasury securities and funds for the mujahedin in Afghanistan Although petrodollar ties often augmented the power of the United States and its Middle East allies Wight argues they also fostered economic disruptions and state sponsored violence

that drove many Americans Arabs and Iranians to resist Middle East US interdependence most dramatically during the Iranian Revolution of 1979 Deftly integrating diplomatic transnational economic and cultural analysis Wight utilizes extensive declassified records from the Nixon Ford Carter and Reagan administrations the IMF the World Bank Saddam Hussein s regime and private collections to make plain the political economy of US power Oil Money is an expansive yet judicious investigation of the wide ranging and contradictory effects of petrodollars on Middle East US relations and the geopolitics of globalization

State-permeated Capitalism in Large Emerging Economies Andreas Nölke,Tobias ten Brink,Christian May,Simone Claar,2019-08-30 This book systematically analyzes the economic dynamics of large emerging economies from an extended Comparative Capitalisms perspective Coining the phrase state permeated capitalism the authors shift the focus of research from economic policy alone towards the real world of corporate and state behaviour On the basis of four empirical case studies Brazil India China South Africa the main drivers for robust economic growth in these countries from the 2000s until the 2010s are revealed These are found in particular in mutual institutional compatibilities of state permeated capitalism in their large domestic markets and beneficial global economic constellations Differences in their institutional arrangements are explored to explain why China and India have been more economically successful than Brazil and South Africa The authors highlight substantial challenges for the stability of state permeated capitalism and assess the potential future growth sustainability and likely pitfalls for these large emerging economies Opening further avenues for empirical and theoretical research this book raises questions for the future of the global economic order and should appeal to academics graduate students and advanced undergraduates in politics economics economic sociology and development studies It should also prove a worthwhile and provocative read for development practitioners and policy makers
