Kaushik Basu

Economic Paper 1 November 2013 Essay:

Collected Papers in Theoretical Economics (Volume V): Economic Policy and Its Theoretical Bases Kaushik Basu, 2018-10-04 Effective policymaking is based on economics which is a blend of empiricism as well as theory. It needs to be grounded not only in data statistics and the regularities observed therein but also analytics, deductive reasoning and logic which are the constituents of theory. Published during 2009-16, the seven years that Basu spent as a policymaker first as chief economic adviser to the Government of India and then as chief economist of the World Bank, this volume draws on the work done by empirical economists and is rooted in analytics even while addressing practical down-to-earth problems. The papers having a direct bearing on economic policymaking in this quintessential compilation range from topics such as financial regulation, global policy coordination, aspects of the Indian economy like fiscal and monetary policy, design, inflation management, food grain policy and more generally the influence of theory on government policymaking. The volume addresses some of the most compelling challenges of our times from the global financial crisis and subprime mortgage breakdown to corruption control and the design of interventions to provide subsidized food to the disadvantaged segments of society.

Foreign Direct Investment in Large-Scale Agriculture in Africa Atkeyelsh Persson, 2019-05-02 This book examines environmental sustainability and inclusive economic growth providing in-depth analysis of foreign direct investment (FDI) in large-scale agriculture in Ethiopia. In most African states, arable land and other natural resources play a pivotal role for economic growth and development. Ethiopia is one of those countries where agriculture is the backbone of the economy. This sector has also been an attraction for FDI in Sub-Saharan Africa since the global food and financial crisis of 2007 and 2008. This book uses six foreign investments in large-scale agriculture as case studies to examine current Ethiopian policies, the patterns of investment, they promote, how these impact on land-based resources and communities' wellbeing. Presenting analyses of the economic, social and political realities of foreign direct investment in the local context, **Foreign Direct Investment in Large Scale Agriculture in Africa** discusses how the fundamental principles of pro-poor and environmentally sustainable investments intersect with the government's ambition to advance Ethiopia's development agenda. This book will be of interest to scholars and students of African economics and sustainable development, African policy makers, intergovernmental organisations as well as multilateral and bilateral development partners.
