Economics Exemplar Paper 2 2014:

Economic and Social Rights and the Maintenance of International Peace and Security Claire Breen, 2017-06-14

This text comprises cutting edge research on one of the greatest global challenges the failure to address systematic economic and social exclusion and attendant violations of economic and social rights ESR as a driver of conflict The text explores what the UN's obligation to maintain international peace and security can mean when it is informed by the requirement to protect and promote ESR rights that play a crucial role in maintaining international peace and security but which are often overlooked The book considers the extent to which Security Council mandated peace operations have been informed by human rights and efforts to promote economic and social development The approach is to analyse the extent to which the Security Council has interacted with the General Assembly the Economic and Social Council as well as other Charter based mechanisms such as the Human Rights Council and its predecessor with particular reference to the role of the Special Procedure Mechanisms The role of the UN High Commissioner for Human Rights is also considered In this way the text shows that the connection between peace and security and human rights is well recognised by these organs In addition the text considers States ESR obligations stemming from the extraterritorial application of such rights in the context of peace operations Given that States obligations stemming from ESR have often been neglected the book examines how such provision could be improved using ESR grounded plans reflecting the rights to health food water education work and life The text concludes with a call to reimagine what international peace and security can look like when it is informed by the need to recognise the emergence of post conflict legal obligations based on broader concepts of international peace and security that draw from ESR This text will appeal to legal scholars policy advisors members of the military those working in the area of development NGOs and final year undergraduate and or postgraduate students working in the areas of international law political science and international relations and associated fields of research

Neoliberalism 2.0: Regulating and Financing Globalizing Markets L. Nijs, 2016-01-26

In today's increasingly globalized environment many economic fundamentals need to be reconsidered in order to regain stability in the global marketplace One such consideration is the failing dynamics of the international tax infrastructure Neoliberalism 2.0 brings a 21st century assessment of the Pigovian taxes considering a completely new calibration of the international tax systems inspired by the historically developed Pigovian tax model The book considers the impact neoliberalism had and will have on regulatory infrastructure democracy in an era of globalization and reduced legitimation of the national state The Pigovian model brings home the often forgotten relationship between taxation as a part of the regulatory sphere macro economics and the political philosophical context in which law and economics emerge The model also takes into account the phenomena of globalization and financialization and is tested using the financial sector as an example This book addresses the many challenges a Pigovian shift would imply for the sovereign and its national economies Neoliberalism 2.0 demonstrates the ability to design a paradigm changing

alternative to the current tax infrastructure while taking into account a low economic growth environment of the future the implications of globalization and the changing relationship between citizens and their state

New Approaches to Economic Challenges Beyond Growth Towards a New Economic Approach OECD,2020-09-11 As the world's leading intergovernmental forum on economic policy the OECD has a central role to play in creating a new economic narrative OECD Secretary General Angel Gurr a therefore invited a high level group of experts to contribute their proposals on what needs to change in economic policy and policymaking This report summarises their conclusions

The Evolution of Economic Wellbeing Zuhayr Mikdashi,2018-12-19 Throughout history humans have sought to enhance their wellbeing across various domains Though the spectrum of factors responsible for wellbeing has widened considerably and advances have been realized in scientific technological fields significant failures have been encountered in establishing peaceful relations among various communities and the natural environment has been degraded inconsiderately by humans since the Industrial Revolution This book identifies the key factors that influence changes in wellbeing both positively and negatively within a framework of socio economic globalization instantaneous interconnectedness and rising environmental risks These clusters of progress comprise essentially the following seven areas bolstering peace and security respecting universal fundamental values satisfying personal and social basic needs expanding knowledge and managerial technological skills promoting arts and culture husbanding natural resources and protecting the environment and concerting actions for the global common good The term progress is used here to mean an all embracing sustainable advancement towards desirable goals be they material or non material offering higher levels of wellbeing to individuals and to society at large compared to previous or current conditions In unravelling the progress conundrum the author draws on his own original research and field work experiences which dovetail with those of other scholars by complementing their findings and or by offering different appraisals The author adopts an inter disciplinary approach that overcomes the silo like compartmentalization of fields of study The said approach enables us to reach a better understanding of the complex reality of progress or regression in various domains

Poverty Alleviation through Tourism Development Robertico Croes,Manuel Rivera,2015-12-23 The book offers a comprehensive and integrated approach to the topic of tourism development and its contribution to the fight against poverty Tourism development is credited to be a powerful source of regional development and improvement in developing countries and the focus of the book is on the world's poorest areas and how tourism connects to

Economic Woman Frances Raday,2019-05-14 The author introduces the concept of economic woman and makes her visible in duality with and opposition to the exclusive model of economic man Economic man has epitomized neo liberal capitalism which embraces competition and maximization of profit resulting in a steep increase in economic inequality The book demonstrates that women's inequality is a crucial factor in economic inequality which cannot be fully understood without relating to women's situation and that economic woman cannot thrive in the conditions of economic inequality created under global neo

liberalism Emphasising the international human rights guarantees of women s right to equality in all fields of life the author documents woman s increased participation in political public financial and corporate institutions employment and entrepreneurship with some women reaching high profile positions Nevertheless using global data she reveals that economic woman lags behind with a severe economic power deficit an unfulfilled promise of equal employment opportunity a gendered impact of poverty and barriers to gender equality in the family The book analyses the trap of women s increased burden of breadwinning in the context of discriminatory laws and practices infrastructural failures and policy gaps which preempt achievement of gender equality in economic life The book is intended for the general reader academics students policy makers and NGOs It shows economic woman at a global crossroads between a universal paradigm of gender equality and pervasive barriers to equal economic opportunity The author demonstrates that tackling gender inequality restoring welfare priorities and reducing economic inequality are inextricably linked Human rights and governments have a vital role to play in addressing them all to create a sustainable economic infrastructure for the lives of women and men Federal Register ,2013-08 Indian Journal of Economics ,2019 **Transfer Pricing Aspects of Intra-Group Financing** Raffaele Petruzzi,2013-10-20 For corporate managers maximization of the profits and the market value of the firm is a prime objective The logical working out of this principle in multinational enterprises has led to an intense focus on transfer pricing between related companies principally on account of the very attractive tax advantages made possible Inevitably numerous countries have established transfer pricing legislation designed to combat the distortions and manipulations that are inherent in such transactions This important book one of the first in depth analysis of the current worldwide working of transfer pricing in intra group financing and its resonance in law presents the relevant issues related to loans financial guarantees and cash pooling analyses an innovative possible approach to these issues and describes new methodologies that can be implemented in practice in order to make intra group financing more compliant with efficient corporate financing decisions and the generally accepted OECD arm s length principle Comparing the tax measures implemented in the corporate tax law systems of forty countries this study investigates such aspects of intra group financing as the following corporate finance theories studies and surveys regarding financing decisions application of the arm s length principle to limit the deductibility of interest expenses impact of the OECD s Base Erosion and Profit Shifting BEPS project transfer pricing issues related to intra group financing credit risk in corporate finance rationales utilized by credit rating agencies and the assessment of arm s length nature of intra group financing The author describes ways in which the application of the arm s length principle can be strengthened and how the related risk of distortion and manipulation can be minimized The solutions and methodologies proposed are applicable to any business sector Given that determination of the arm s length nature of transactions between related companies is one of the most difficult tasks currently faced by taxpayers and tax administrations around the world this thorough assessment and analysis will prove extraordinarily useful for in house and advisory practitioners corporate

officers academics international organizations and government officials charged with finding effective responses to the serious issues raised In addition to its well researched analysis the book s comparative overview of how loans financial guarantees and cash pooling are currently addressed by OECD Member States and by their national courts is of great practical value in business decision making *The Quarterly Review of Economics and Finance* ,2015

The effects of the legal minimum wage in Germany Fabian Uyanakumarage,2020-03-23 Seminar paper from the year 2020 in the subject Economics Other grade 1 3 University of Applied Sciences Riedlingen language English abstract Minimum wage is the minimum amount of remuneration that an employer is required to pay wage earners for the work performed during a given period which cannot be reduced by collective agreement or an individual contract The government uses the minimum wage as a basic price control which can force companies to create equal pay for all employees regardless of their origin gender or belief Currently 90 percent of countries have regulations or binding tariff regulations that determine the minimum wage In countries such as Sweden Finland Denmark Switzerland Austria and Italy there is no legal minimum wage There the government leaves the employer associations and unions to set a minimum wage in collective bargaining New Zealand was the first country to introduce the minimum wage in 1894 and 192 more followed until 2019 Many of these countries have very complex systems for example India has more than 1200 different minimum wage rates Hardly any other labour market policy measure has been discussed as extensively as the introduction of the minimum wage of EUR 8 50 gross per hour on January 1 2015 in Germany For the supporters it was a long overdue step to offer low wage earners a higher wage and thus a better standard of living However economists warned in advance that introducing minimum wages would only have negative consequences especially when it comes to employment Various studies have predicted that it could result in the loss of thousands of jobs For example the Ifo Institute in Munich forecasted a threat to up to 900 thousand jobs Opponents of the minimum wage also pointed out that low skilled workers would find it difficult to get into employment and would make little contribution to fighting poverty The aim of this paper is to analyse how the market in Germany reacted to the introduction of the minimum wage Also the history and structure of the minimum wage is described and the different economic theories are compared

Population Issues Into Development Plans' Project, UNFPA Shamsul Alam (Government economist), 2015 *EU Competition Law. Optimum Enforcement Methods Against EU Cartel Participants Ronan Garvey, 2020-06-17* Essay from the year 2019 in the subject Law Civil Private Trade Anti Trust Law Business Law grade 82 00 University College Cork course LLB language English abstract This paper is concerned with optimising the enforcement of European Union Competition Law against cartels participants A critique of Directive 2014 104 and its main shortcomings will begin this paper Investigation then launched into role of national competition authorities in the Union arguing that enhanced member state cooperation and full transposition of draft Directive 2019 1 ECN will deter cartel activity Final point concerns individual liability against the company agents behind cartels how corporate fines imposed by European Commission fail to deter individuals against continued cartel participation **Economic Survey ,2016** **Responsible Tourism Initiatives in South Africa. Challenges and Possible Solutions ,2023-10-10** Seminar paper from the year 2022 in the subject Tourism Miscellaneous grade 1 0 Nelson Mandela Metropolitan University language English abstract This essay discusses the topic of responsible tourism in South Africa and its challenges and possible solutions The essay is structured along some prompts from a lecturer at the beginning of the text and looks at the V A Waterfront in Cape Town as an example The author discusses how this specific projects adheres to repsonsible tourism guidelines the challenges it faces and possible solutions The Encyclopaedia Britannica: Constantine Pavlovich-Demidov ,1910 The last great work of the age of reason the final instance when all human knowledge could be presented with a single point of view Unabashed optimism and unabashed racism pervades many entries in the 11th and provide its defining characteristics Despite its occasional ugliness the reputation of the 11th persists today because of the staggering depth of knowledge contained with its volumes It is especially strong in its biographical entries These delve deeply into the history of men and women prominent in their eras who have since been largely forgotten except by the historians scholars The Guardian <https://www.theguardian.com/books/booksblog> 2012 apr 10 encyclopedia britannica 11th edition Causes of Japan's Low Inflation in the 21st Century Niklas Humann,2022-08-18 Seminar paper from the year 2022 in the subject Economics Macro economics general grade 1 3 University of M nster language English abstract The objective of this paper is to not only give an overview of Japan s Lost Decades and its pioneering use of monetary and fiscal policy measures but to also investigate why Japan was unable to lift itself out of the deflationary slump Over the years the literature has identified a variety of different factors that have temporarily pushed the Japanese inflation rate into negative territory but no single explanation was yet able to reveal the permanence of it This paper will hence follow the literature in considering different factors grouping them into demand and supply factors to ease the analysis An additional focus of this study will be on the Bank of Japan s pioneering yet dissatisfying use of monetary policy Japan s struggle with consumer price deflation began in the aftermath of the asset bubble and subsequent banking crisis in the 1990s The period since then has become known as the Lost Decades which are characterized by negative output

growth moderate deflation as well as rising income inequality While Japan's bouts with deflation are interesting from a practical point of view regarding their negative consequences on the economy and ultimately the people of Japan they are even more interesting from a theoretical point of view as part of a discussion and refinement of alternative theories of economic fluctuations

New Dimensions of Economic Regionalism. BRICS' Integration and Independence through Globalization Monica Simangele Maphumulo, 2019-10-24 Essay from the year 2019 in the subject Economics Foreign Trade Theory Trade Policy University of KwaZulu Natal language English abstract The BRICS Brazil Russia India China South Africa are a fine example of explaining the new dimension of economic regionalism where BRICS intra regional trade relations become the binding factor towards its economic integration and independence The existing literature is focused on the economic integration of the five emerging countries for example the economic integration theory EIT assumes that increasing globalization and technological progress leads to freer trade and movement of economic factors as well as to deeper integration over time It shows that physical border is no longer a criterion for economic interdependence and integration within a group while the concerns and common interests form important factors for a new dimension of economic regionalism The concept of economic regionalism is defined as an empirically observable process of increasing cross border activities cooperation and coordination within a group of countries through integration Originally the concept of economic regionalism has been based on economic cooperation between natural partners neighbouring countries or countries on the same continent But since technological progress reduced transaction costs intercontinental and global economic integration has become important in recent decades Geographical distance may stay important for trade flows but intercontinental relations of emerging countries record a steady rise in trade relations In general regionalism could be defined as preferential cooperation among nations that are relocated in terms of geographical proximity with certain common characteristics such as historical cultural political and so forth The objective of cooperation might be economic political or cultural in nature In this context the economic regionalism is considered more autonomous outward oriented comprehensive and multi dimensional process which includes trade and economic integration environment and social policy issues relating to security and democracy where the nation states and other actors play an important role
