The American Journey Joyce Oldham Appleby, Alan Brinkley, James M. McPherson, 2003 Managing Community Resettlement Robert Gerrits, 2023-06-22 Each year millions of people are displaced from their homes and lands While international environmental and social performance standards on land access and involuntary resettlement exist no framework supporting livelihood restoration has been developed This book provides a framework that will help improve practice for those who are involved in resettlement projects and crucially improve the outcomes for the resettlement affected households and communities Evidence from the implementation of public and private sector led resettlement projects indicates that livelihood restoration is a persistent shortcoming if not failure across these projects This book addresses this issue by re characterising the livelihood restoration objective as livelihood re establishment and development and proposes a framework for the entire resettlement process that puts livelihood considerations first The framework enables proactive identification of the potential livelihood challenges associated with each step of the resettlement process design planning execution monitoring and evaluation as well as the opportunities that resettlement project development and induced economic growth create This book is essential reading for experts in social impact assessment resettlement specialists planners administrators non governmental and civil society organisations and students of development studies and social policy

A Social Strategy Mikolaj Jan Piskorski, 2016-02-23 What people get out of social media and how businesses can get more out of it Almost no one had heard of social media a decade ago but today websites such as Facebook Twitter and LinkedIn have more than 1 billion users and account for almost 25 percent of Internet use Practically overnight social media seems indispensable to our lives from friendship and dating to news and business What makes social media so different from traditional media Answering that question is the key to making social media work for any business argues Miko aj Piskorski one of the world s leading experts on the business of social media In *A Social Strategy* he provides the most convincing answer yet one backed by original research data and case studies from companies such as Nike and American Express Drawing on his analysis of proprietary data from social media sites Piskorski argues that the secret of successful ones is that they allow people to fulfill social needs that either can t be met offline or can

be met only at much greater cost This insight provides the key to how companies can leverage social platforms to create a sustainable competitive advantage Companies need to help people interact with each other before they will promote products to their friends or help companies in other ways Done right a company's social media should benefit customers and the firm Piskorski calls this a social strategy and he describes how companies such as Yelp and Zynga have done it Groundbreaking and important A Social Strategy provides not only a story and data driven explanation for the explosion of social media but also an invaluable concrete road map for any company that wants to tap the marketing potential of this remarkable phenomenon

Legal, Institutional, and Economic Indicators of Forest Conservation and Sustainable Management, 2005 This review looks at the Nation's legal institutional and economic capacity to promote forest conservation and sustainable resource management It focuses on 20 indicators of Criterion Seven of the so called Montreal Process and involves an extensive search and synthesis of information from a variety of sources It identifies ways to fill information gaps and improve the usefulness of several indicators It concludes that there is substantial information about the application of such capacities although that application is widely dispersed among agencies and private interests which in turn has led to differing interpretations of the indicators Individual chapters identify a need to further develop the conceptual foundation on which many of the indicators are predicated While many uncertainties in the type and accuracy of information are brought to light the review clearly indicates that legal institutional and economic capacities to promote sustainability are large and widely available in both the public and private sectors P vi
