Flooding Great Britain. Parliament. House of Commons. Environment, Food and Rural Affairs Committee, 2008
Incorporating HC 1060 i session 2006 07 Sustainable Futures in the Built Environment to 2050 Tim Dixon, John
Connaughton, Stuart Green, 2018-01-09 Brings together leading thinking on issues of new professional practice and on the
future of a sustainable built environment This book focuses on both construction and development issues and examines how
we can transition to a sustainable future by the year 2050 bringing together leading research and practice at building
neighbourhood and city levels It deftly analyses how emerging socio economic technological and environmental trends will
influence the built environment of the future The book covers a broad spectrum of interests across the scales of buildings
communities and cities including how professional practice will need to adapt to these trends The broader context is provided
by an analysis of emergent business models and the changing requirements for expert advice from clients Sustainable
Futures in the Built Environment to 2050 A Foresight Approach to Construction and Development features chapters covering
data and trends including historical data and UK and international case studies policies and practice related to the field
current state of scientific understanding key challenges key technological advances including disruptive and systemic
technological innovations change issues and critical uncertainties and future visions It provides A strong conceptual
framework based on a Foresight approach Discussion of the key data and trends that underpin each chapter Coverage of
both construction and property development Specially commissioned chapters by academics and practitioners A synthesis of
the main findings in the book and key insights for the future to 2050 Sustainable Futures in the Built Environment to 2050 A

specialists and anyone involved in sustainable buildings **The Soils of Ireland** Rachel Creamer, Lilian
O'Sullivan, 2018-03-29 This book provides a comprehensive overview of pedology in Ireland It describes the main soil types of
the country their functions ecological use and the conditions to which they were subjected associated with management over
time In addition it presents a complete set of data pictures and maps including benchmark profiles Factors involved in soil
formation are also discussed making use of new unpublished data and elaborations The book was produced with the support
and sponsorship of Teagasc The Agriculture and Food Development Authority Ireland and the Irish Environmental Protection
Agency The Water Sensitive City Gary Grant, 2016-02-22 This book advocates a more thoughtful approach to urban water
management The approach involves reducing water consumption harvesting rainwater recycling rainwater and adopting
Sustainable Drainage Systems SuDS where surface water is not sent straight to drains but is intercepted by features like
green roofs rain gardens swales and ponds Cities in particular need to change the existing linear model of water consumption
and use to a more circular one in order to survive The Water Sensitive City brings together the various specialised technical
