Managing Enterprise-wide Deployment of IBM Explorer for z/OS or CICS Explorer David Nice, IBM Redbooks, 2014-01-10

This IBM Redpaper™ publication describes the set of features that IBM clients use to simplify deployment of the IBM Explorer products in their operating environments. This enables them to give different levels of control to the system administrator, provide different types of experiences for their users, and require different levels of technical knowledge to implement. Before describing the different mechanisms available for deployment and the unique features of each, the author introduces some of the factors that are involved in deployment. He concludes with a comparison chart of the available technologies so that you can determine which is the most appropriate for your situation. This paper is likely to interest the people in your organization who are responsible for planning, managing, and maintaining deployments of IBM z/OS Explorer and IBM CICS Explorer software. Infinispan Data Grid Platform Definitive Guide Wagner Roberto dos Santos, 2015-05-29

Key Features: Install and configure PRD in Linux and Windows. Create complex reports using relational data sources. Produce reports with groups, aggregate functions, parameters, graphics, and sparklines. Install and configure Pentaho BI Server to execute PRD reports. Create and publish your own Java web application with parameterized reports and an interactive user interface. Book Description: Open source reporting tools and techniques such as PRD have been comparable in quality to their commercial counterparts; this is largely due to the market's marked tendency to choose open source solutions. PRD is a very powerful tool, and in order to take full advantage of it, you need to pay attention to the important details. Pentaho 5.0 Reporting by Example: Beginner's Guide clearly explains the foundation and then puts those concepts into practice through step-by-step visual guides. Feeling confident with your newly discovered desirable skill, you will have the power to create your very own professional reports, including graphics, formulas, sub-reports, and many other forms of data reporting. Pentaho 5.0 Reporting By Example: Beginner's Guide is a step-by-step guide to create high-quality professional reports. Starting with the basics, we will explore each feature to ensure a thorough understanding, to peel back the curtain and take full advantage of the power that Pentaho puts at our fingertips. This book gives you the necessary resources to create a great variety of reports. You will be able to make reports that contain sub-reports, include graphics, sparklines, and so on. You will also be able to parameterize your reports so that the final user can decide what information to visualize. You will be able to create your own spotlight-type indicators and drill down in your reports and execute your reports from your own web application. Pentaho 5.0 Reporting By Example: Beginner's Guide lets you learn everything necessary to work seriously with one of the world's most popular open source reporting tools. This book will guide you chapter by chapter.
