

Step 1

DISTRICT VISITS

We inspected three school sites at each of our six selected districts for a total of 18 schools across the State.

Step 2

INSPECTION CRITERIA

Our inspections consisted of a review of both FIT requirements and Association of Physical Plant Administrators* (APPA) guidance.

Step 3

INSPECTION PROCESS

We inspected all indoor and outdoor facilities at each selected school, making exceptions for a small number of classrooms and areas that were actively in use for educational purposes after the school day had concluded, and that were still in use when we completed our inspection. We documented our inspections using photographs to facilitate discussion with school officials.

Step 4

STAFF INPUT

During inspections, we spoke with any school staff who remained on the premises to identify any additional deficiencies that might exist.

Step 5

AFTER INSPECTIONS

When we identified dangerous or hazardous conditions, such as unsecured hazardous materials, we met with the school's management to inform them of our concerns. We also conducted re-inspections to verify that such conditions were addressed.
