Case 58n Backhoe Service Manual:

Case Management Resource Guide ,1997 *Persons, Parts and Property* Imogen Goold,Kate Greasley,Jonathan Herring,Loane Skene,2014-09-25 The debate over whether human bodies and their parts should be governed by the laws of property has accelerated with the pace of technological change Having long held that a corpse could not be property the common law first recognised that there could be a property interest in human tissue in some circumstances in the early 1900s but it was not until a string of judicial decisions and statutory regulation in the 1990s and early 2000s that the place of this exception was cemented The 2009 decision of the Court of Appeal of England and Wales in *Yearworth Ors v North Bristol NHS Trust* added a new dimension to the debate by supporting a move towards a broader more principled basis for finding or rejecting property rights in human tissue However the law relating to property rights in human bodies and their parts remains highly contested The contributions in this volume represent a collation of the broad spectrum of analyses on offer and provide a detailed exploration of the salient legal and theoretical puzzles arising out of the body as property question
