**El Morr, Christo**

## **Conference Board Of Canada Report Card:**

**Canada and Great Power Competition** David Carment, Laura Macdonald, Jeremy Paltiel, 2022-08-31 This edition of Canada Among Nations over the last year and projects forward into the year 2022 2021 was a year of challenges for Canada and a watershed in its engagement with the global political economy Beset by a pandemic hemmed in by an America first administration in Washington and punitive recrimination from a Chinese government with global ambitions the shrinking horizons of a foreign economic policy premised on liberal internationalism and multilateral institutionalism have sapped Canada's global ambitions

Gender Equality and Policy Implementation in the Corporate World Isabelle Engeli, Amy G. Mazur, 2022-05-05 Gender Equality and Policy Implementation in the Corporate World takes a unique approach to the issue of gender equality in corporations in the 21st century It examines the implementation of specific policies that seek to promote women's presence on corporate boards in 15 democracies in Western and Central Eastern Europe North America and Australasia through the lens of the Gender Equality Policy in Practice Approach The thirteen empirically rich country chapters by leading country experts and two separate comparative chapter answer core questions How were policies adopted and implemented Did they achieve any degree of success that would allow for real and lasting equality What were the politics of the pursuit of corporate gender equality across the 15 countries What worked and did not work and why What are the lessons to be drawn from these experiences The findings of the book show that policy implementation does matter but that in this last bastion of male domination policies have had more success in increasing women's numbers over challenging gender biased norms that block women of all cultural and socio economic backgrounds from gaining real power on boards The path breaking study shows that the reasons for this slow change are highly complex and case specific in the details of each policy mix While progress has been slow in coming it has still been made even in these challenging times Future policy success the book concludes is in the hands of men and women willing to come forward to overcome these well entrenched obstacles

The Right to a Healthy Environment David R. Boyd, 2012-10-03 Canada has abundant natural wealth beautiful landscapes vast forests and thousands of rivers and lakes The land defines Canadians as a people yet the country has one of the worst environmental records in the industrialized world Building on his previous book The Environmental Rights Revolution 2012 David R Boyd one of Canada's leading environmental lawyers describes how recognizing the constitutional right to a healthy environment could have a transformative impact by empowering citizens holding governments and industry accountable and improving Canada's green record The overwhelming majority of the world's nations now recognize environmental rights through laws constitutions treaties or court decisions Boyd explores Canada's history of failed efforts to do the same within this international context and offers three pathways to constitutional recognition of the right to a healthy environment This important and provocative book provides a blueprint for renewed leadership in protecting human health the well being of the planet and the interests of future generations

**Solid Waste Recycling and Processing** Marc J. Rogoff, 2013-11-18 Solid

Waste Recycling and Processing Second Edition provides best practice guidance to solid waste managers and recycling coordinators. The book covers all aspects of solid waste processing volume reduction and recycling encompassing typical recyclable materials paper plastics cans and organics construction and demolition debris electronics and more. It includes techniques technologies and programs to help maximize customer participation rates and revenues as well as to minimize operating costs. The book is packed with lessons learned by the author during the implementation of the most successful programs worldwide and includes numerous case studies showing how different systems work in different settings. This book also takes on industry debates such as the merits of curbside sort versus single stream recycling and the use of advanced technology in materials recovery facilities. It provides key facts and figures and brief summaries of legislation in the United States Europe and Asia. An extensive glossary demystifies the terminology and acronyms used in different sectors and geographies. The author also explains emerging concepts in recycling such as zero waste sustainability LEED certification and pay as you throw and places waste management and recycling in wider economic environmental sustainability political and societal contexts. Covers single and mixed waste streams. Evaluates the technologies and tradeoffs of recycling of materials vs integrated solutions including combustion and other transformational options. Covers recycling as part of the bigger picture of solid waste management processing and disposal.

**Tackling Health Inequalities** Dennis Raphael, 2012. Tackling Health Inequalities: Lessons from International Experiences provides a unique perspective on health inequalities in Canada and elsewhere. This exciting new volume brings together experiences from seven wealthy developed nations: the United States, Australia, Britain, and Northern Ireland, Canada, Finland, Norway, and Sweden, to analyze their contrasting approaches to reducing avoidable health problems. Some nations are successfully responding to health inequalities, but Canada and the United States are not among them. Why is this, and what can we learn from other nations? Through a political economy lens, Tackling Health Inequalities considers how societal structures and institutions shape the distribution of economic, political, and social resources that affect health disparities amongst the population. The volume then goes on to examine how governing authorities come to either confront or ignore these health inequalities and the conditions that create them. Through these illustrations, it encourages governing authorities that are tackling health inequalities to continue their efforts and directs those that are not, such as in Canada and elsewhere, towards what must be done. This groundbreaking text shows the primary lessons from these international experiences that citizens in Canada and elsewhere need to educate themselves about the importance of tackling health inequalities and then build the political and social movements that will compel governmental authorities to take action. This volume will serve as a rich resource for professionals and general readers interested in health studies, nursing, social work, public policy, and political economy.
