Bebawi, D. Kavoori, Todd Fraley, 2006-01-20 Over the past few years coverage of terror attacks has featured prominently in numerous media outlets Drawing on both popular and academic articles the essays in Media Terrorism and Theory A Reader analyze the larger issues surrounding media's portrayal of terrorism including terrorism as a media event war and media nationalism and media public responsibility and journalistic accountability Renowned contributors from around the world explore these issues as they relate to a global community From such diverse fields as cultural studies political science media studies architecture and information science each brings a distinctive perspective Answering a growing need to understand media discourse on terrorism Media Terrorism and Theory complements readings in upper level mass communication courses and will appeal to students and scholars of international media and terrorism Contesting Media Power Nick Couldry, James Curran, 2003-09-22 In this book media scholars and political scientists develop a broad comparative framework for analysing alternative media in various countries Topics include independent media centres gay online networks feminist film and alternative web discussion forums *Gender and National Development* Nkem Fab-Ukozor, Onyebuchi Chima Alexander, 2023-06-30 This book serves to shed a light on the position of women in media and how these institutions shape the women's contributions to national development The authors argue that women are unsung heroes driving the growth of nations Nevertheless their stories are seldom told they are often stereotyped and marginalized within society This form of discrimination serves to take away the voices of women in all social stratas especially in the developing nations of Africa It is little wonder that there is gender inequality gender bias and gender injustice in society This book highlights literature which

may be used to actualize gender equality and social justice for women By creating a discussion around gender society will begin to understand the value and importance of women in engineering development Women are vital to social change

Reclaiming the Media Bart Cammaerts,Nico Carpentier,2007 Against the claims of increasing sexualisation of culture one truism is constantly rehearsed that women have little taste for pornography This book offers an understanding of women's pleasures in sexually explicit materials by focusing on the production and consumption of For Women magazine

Mediatized Conflict Simon Cottle,2006 Annotation This important book brings together the latest research findings and theoretical discussions to develop an encompassing multidimensional and sophisticated understanding of the social complexities political dynamics and cultural forms of mediatized conflicts in the world today Jacket Media Agoras Iñaki Garcia-Blanco,Sofie van Bauwel,Bart Cammaerts,2009 Media Agoras Democracy Diversity and Communication is a collection of essays presenting some of the most up to date perspectives on the study of the role media play in the construction of a more inclusive and respectful society From theoretical debates on the role played by media in fostering participatory practices in the public sphere to more empirically based analyses of the media policy production content and reception in relation to democratic possibilities and diversity this book presents a critical overview of such crucial debates in

contemporary European societies **Looking at it Sideways** Jennifer Rauch,2006 Discourse analysis revealed that although both groups distanced their own perspectives from those of an imagined mass audience they did so in disparate ways Unlike students activists played games of interpretation such as role playing inventing dialogue and using conditional clauses contrary to fact If They contrasted their own critical activity with the passive susceptibility they perceived in other people who were not engaged in a counter public sphere **Javnost** ,2007 **Media Asia** ,2004 **Global Civil Society**

2007/8 Martin Albrow,Helmut K Anheier,Marlies Glasius,Monroe E Price,Mary Kaldor,2008 The annual Global Civil Society Yearbooks provide an indispensable guide to global civil society or civic participation and action around the world The 2007 8 Yearbook focuses on the potentially powerful relationship between communication and democracy promotion The Global Civil Society Yearbook remains the standard work on all aspects of contemporary global civil society for activists practitioners students and academics alike **New Media Worlds** Virginia Nightingale,Tim Dwyer,2007 Uses a mix of case studies

theoretical reflection and critical analysis to explore four central issues for the study of new media and their impact on user communities the impact of convergence activism access and participation in new media Throughout it emphasises the way audiences are experiencing changes in the media Participation and Media Production Nico Carpentier,Benjamin De Cleen,2008 In an era when especially new media are celebrated for their participatory potential questions about the nature and intensity of these participatory processes seem to be superfluous But raising these questions pushes us into a critical mode towards the changes that have lead to the present day media landscape This volume TM's authors aim to activate this critical mode and reflect on the participatory nature of contemporary media organizations and products In order to stand

even a remote chance to realize this objective and to critically unravel the societal role of participation we need to acknowledge that participation is a complex and contested notion covering a wide variety of meanings and practices that are converging into a hybrid of technologies genres and formats At the same time prudence is required as many of the empowering and transformative opportunities cover up a multitude of restrictions that deal with muting voices appropriations techniques of surveillance inequalities and exclusions This volume thus provides its readership with a set of analyses that reconcile the appreciation for the analogue and digital empowerment and emancipation with the critical analysis of their boundaries Participation and Media Production is the result of the intellectual work of the participants of the 2007 San Francisco Conference of the International Communication Association ICA
