Reading the Church Fathers Morwenna Ludlow, Scot Douglass,2011-04-28 Reading the corpus of texts written by the Fathers of the Church has always been a core area in Christian theology However scholars and academics are by no means united in the question how these important but difficult authors should be read and interpreted Many of them are divided by implicit but often unquestioned assumptions about the best way to approach the texts or by underlying hermeneutical questions about the norms limits and opportunities of reading Ancient Christian writers This book will raise profound hermeneutical questions surrounding the reading of the Fathers with greater clarity than it has been done before The contributors to this volume are theologians and historians who have used contemporary post modern approaches to
