Cartoon Modern Amid Amidi, 2006-08-17 Between the classic films of Walt Disney in the 1940s and the televised cartoon revolution of the 1960s was a critical period in the history of animation Amid Amidi of the influential Animation Blast magazine and CartoonBrew blog charts the evolution of the modern style in animation which largely discarded the lifelike aesthetic for a more graphic and often abstract approach Abundantly found in commercials industrial and educational films fair and expo infotainment and more this quickly popular cartoon modernism shared much with the painting and graphic design movements of the era Showcasing hundreds of rare and forgotten sketches model boards cels and film stills Cartoon Modern is a thoroughly researched eye popping and delightful account of a vital decade of animation design

**Redesigning Animation** Cinzia Bottini, 2018-10-03 The animation studio United Productions of America UPA was able to challenge Disney supremacy in the 1950s entertainment market by creating cutting edge animated cartoons UPA films express a simplified audiovisual language consisting of stylized layout designs asymmetrical compositions colors applied flatly and in contrast with each other limited animation and a minimalist use of sound effects UPA artists developed this innovative style by assimilating those aesthetic features already expressed by Modern painters graphic designers and advertisers This book considers UPA films as Modern animations because they synthesize a common minimalist tendency that was occurring in US animation during the 1940s and 1950s It examines the conditions under which UPA studio flourished and the figure of its executive producer Stephen Bosustow the influence of Modernist stylistic features of painting graphic design and poster advertising on UPA animations and UPA animated cartoons as case studies of a simplified audiovisual language that influenced 1950s 1960s international productions Key Features Looks at UPA s origins during the 1940s and postwar American stage and how this influences later Modern movements and styles Learn about the production methods of UPA and its lasting graphic contribution to animation history Discover how UPA audiovisual styles were born from the assimilation of Modern paintings graphic art and poster advertising Explores how UPA influenced animation in other parts of the world including Romania Russia and Japan Highlights the impact UPA had on styles with famous international legends like Du an Vukoti Fyodor Khitruk and Osamu Tezuka Figure and Force in Animation Aesthetics Ryan Pierson, 2020 How can we describe movements in animated films In Figure and Force in Animation Aesthetics Ryan Pierson introduces a powerful new method for the study of animation By looking for figures arrangements that seem to intuitively hold together and forces underlying units of attraction repulsion and direction Pierson reveals startling new possibilities for animation criticism history and theory Drawing on concepts from Gestalt psychology Pierson offers a wide ranging comparative study of four animation techniques soft edged forms walk cycles camera movement and rotoscoping as they appear in commercial artisanal and avant garde works In the process through close readings of little analyzed films Pierson demonstrates that figures and forces make fertile resources for theoretical speculation unearthing affinities between

animation practice and such topics as the philosophy of mathematics scientific and political revolution and love Beginning and ending with the imperative to look closely Figure and Force in Animation Aesthetics is a performance in seeing the world of motion anew

**Gorgeous War** Tim Blackmore,2019-10-29 Gorgeous War argues that the Nazis used the swastika as part of a visually sophisticated propaganda program that was not only modernist but also the forerunner of contemporary brand identity When the United States military tried to answer Nazi displays of graphic power it failed In the end the best graphic response to the Nazis was produced by the Walt Disney Company Using numerous examples of US and Nazi military heraldry Gorgeous War compares the way the American and German militaries developed their graphic and textile design in the interwar period The book shows how social and cultural design movements like modernism altered and were altered by both militaries It also explores how nascent corporate culture and war production united to turn national brands like IBM Coca Cola and Disney into multinational corporations that had learned lessons on propaganda and branding that were being tested during the Second World War What is the legacy of apparently toxic signs like the swastika The answer may not be what we hoped Inheritors of the post Second World War world increasingly struggle to find an escape from an intensely branded environment to find a place in their lives that is free of advertising and propaganda This book suggests that we look again at how it is our culture makes that struggle into an appealing Gorgeous War

**TV by Design** Lynn Spigel, 2008 From the Publisher While critics have long disparaged commercial television as a vast wasteland TV has surprising links to the urbane world of modern art that stretch back to the 1950s and 60s during that era the rapid rise of commercial television coincided with dynamic new movements in the visual arts a potent combination that precipitated a major shift in the way Americans experienced the world visually TV by Design uncovers this captivating story of how modernism and network television converged and intertwined in their mutual ascent during the decades of the cold war Whereas most histories of television focus on the way older forms of entertainment were recycled for the new medium Lynn Spigel shows how TV was instrumental in introducing the public to the latest trends in art and design Abstract expressionism pop art art cinema modern architecture and cutting edge graphic design were all mined for staging techniques scenic designs and an ever growing number of commercials As a result TV helped fuel the public craze for trendy modern products such as tailfin cars and boomerang coffee tables that was vital to the burgeoning postwar economy And along with influencing the look of television many artists including Eero Saarinen Ben Shahn Saul Bass William Golden and Richard Avedon also participated in its creation as the networks put them to work designing everything from their corporate headquarters to their company cufflinks Dizzy Gillespie Ernie Kovacs Duke Ellington and Andy Warhol all stop by in this imaginative and winning account of the ways in which art television and commerce merged in the first decades of the TV age
