Cook, Robert Davis Cook, 1981-07 *Concepts and Applications of Finite Element Analysis* Tony Cook, 1989-03-06 *Review of Progress in Quantitative Nondestructive Evaluation* Donald O. Thompson, Dale E. Chimenti, 2012-12-06 In this volume parts 1 and 2 are contained the edited papers presented at the annual Review of Progress in Quantitative NDE held at the University of California San Diego August 1-6 1982 This Review possibly the most comprehensive annual symposium emphasizing both ongoing research and applications in quantitative NDE was sponsored by the Center for Advanced NDE at the Ames Laboratory of the U S Department of Energy in cooperation with the Materials Laboratory of the Air Force Wright Aeronautical Laboratories and the Defense Advanced Research Projects Agency Over 300 attendees representing various government agencies and the industrial and university communities participated in the technical presentations poster sessions and discussions The symposium benefited from the insight of two keynote speakers Dr Harris Burte of the Materials Laboratory AFWAL and Mr Ward Rummel of the Martin Marietta Corporation who presented complementary messages Dr Burte pointed out the need to identify windows to serve as guides for focusing NDE research The window concept may be thought of as an opportunity for the application of NDE technology to an important problem and through this application to identify knowledge gaps which must be filled by generic research This concept simultaneously provides a mechanism for the solution of a direct application problem and a set of strong guidelines for generic research directions Mr Rummel called attention to the value of lessons learned from various *Engineering Education*, 1985 [Whitaker's Cumulative Book List](#), 1985 *Numerical/Laboratory Computer Methods in Fluid Mechanics* A. A.
