**Do Facts Matter?** Jennifer L. Hochschild, Katherine Levine Einstein, 2015-01-20 A democracy falters when most of its citizens are uninformed or misinformed when misinformation affects political decisions and actions or when political actors foment misinformation. The state of affairs the United States faces today as this timely book makes painfully clear. In *Do Facts Matter* Jennifer L. Hochschild and Katherine Levine Einstein start with Thomas Jefferson's ideal citizen who knows and uses correct information to make policy or political choices. What then the authors ask are the consequences if citizens are informed but do not act on their knowledge. More serious what if they do act but on incorrect information. Analyzing the use, nonuse and misuse of facts in various cases such as the call to impeach Bill Clinton, the response to global warming, Clarence Thomas's appointment to the Supreme Court, the case for invading Iraq, beliefs about Barack Obama's birthplace and religion and the Affordable Care Act, Hochschild and Einstein argue persuasively that errors of commission that is acting on falsehoods are even more troublesome than errors of omission. While citizens inability or unwillingness to use the facts they know in their political decision making may be frustrating, their acquisition and use of incorrect knowledge pose a far greater threat to a democratic political system. *Do Facts Matter* looks beyond individual citizens to the role that political elites play in informing, misinforming and encouraging or discouraging the use of accurate or mistaken information or beliefs. Hochschild and Einstein show that if a well informed electorate remains a crucial component of a successful democracy, the deliberate concealment of political facts poses its greatest threat.

**Amazing Stories**, 1926 **Amazing Adventures of a Heart Surgeon** Domingo Liotta, 2007-03-25 The startling originality of *Amazing Adventures of a Heart Surgeon* is intrinsically imbued in its focus on historical, ethics and esthetic theories. He also discusses the early conception of cardiovascular system, the oxygenation of tissues, the mysterious medical power of shamanism, Taoism, Ugarit, the mythic lost city.
