**Online Professional Development and Teacher Capacity to Incorporate English Language Arts Assignments Based on Levels 3 and 4 of Webb's Depth of Knowledge Framework** Katrina Denise

Taylor, 2021. The purpose of this study was to determine the existence of a relationship between online professional development and English language arts (ELA) teachers' instructional practices. Professional development is commonly utilized to develop teachers' pedagogy, but in-person sessions do not meet all teachers' needs. Mixed methods research was utilized to examine relationships between teachers' ability to create and incorporate assignments based on levels 3 or 4 of Webb's Depth of Knowledge (DOK) Framework, self-efficacy regarding teaching higher order thinking skills, and online professional development on those topics. The results indicated a moderate positive directional relationship between these components. The only statistically significant relationship existed between teachers' incorporation of tasks from Webb's DOK levels 3 or 4 and their online professional development performance. **CSE Report**, 2006.
