

# DESIGNING AND BUILDING A SECURITY OPERATIONS CENTER

SYNGRESS

Learn how a security operations center can keep your networks and data safe!

Do you know what mechanisms are used to protect against cyber-warfare and what tools to use to minimize their impact? How can you gather intelligence and properly train staff that will allow you to configure your systems to effectively ward off attacks? Online security and privacy issues are becoming more and more significant every day, with many instances of companies and governments mishandling personal and financial data.

Organizations need to be committed to defending their own assets and their customers' information. *Designing and Building a Security Operations Center* will show you how to develop the organization, infrastructure, and capabilities to protect your company and your customers effectively, efficiently, and discreetly.

Written by a subject expert who has consulted on SOC implementation in both the public and private sector, *Designing and Building a Security Operations Center* is the go-to blueprint for cyber-defense.

- Explains how to develop and build a Security Operations Center
- Shows how to gather invaluable intelligence to protect your organization
- Provides tips and techniques to train and manage technical staff
- Helps you evaluate the pros and cons behind each decision during the SOC-building process

David Nathans is a highly-sought-after consultant on building enterprise security programs, Security Operation Centers and as a speaker on cyber security for conferences, interest groups, and corporate events. As a former CISO for a large US and International Defense Contractor as well as the former Global Security Operations Center manager for one of the largest Managed Security Services Providers in the world, he has a wealth of security operations knowledge he now shares.

The experiences and lessons learned also stem from his time building security programs at one of the largest breached retail companies in history as well as working all over the world as a cyber-operations officer for the U.S. Air Force.
