 4 STAR DOODY'S REVIEW During medical school I used similar case review books for various clerkships including psychiatry  
 This one stands out because the cases are representative of psychiatry the explanations are complete yet concise and the text  
 uses bolded words tables and definitions of key terms to help readers understand the essential concepts rather than simply  
 memorizing more data that is likely to be forgotten The questions are very representative of the type of questions on the shelf  
 exams and USMLE Step 2 with appropriate descriptions of the correct answers The first two sections are ideal for students  
 just beginning their clerkship as they set the groundwork for the basis of psychiatry Doody's Review Service You need  
 exposure to high yield cases to excel on the psychiatry clerkship and the shelf exam Case Files Psychiatry presents 60 real  
 life cases that illustrate essential concepts in psychiatry Each case includes a complete discussion clinical pearls references
