Clash Over Climate Report Email:

Who Speaks for the Climate? Maxwell T. Boykoff, 2011-09-22 The public rely upon media representations to help interpret and make sense of the many complexities relating to climate science and governance Media representations of climate issues from news to entertainment are powerful and important links between people's everyday realities and experiences and the ways in which they are discussed by scientists policymakers and public actors A dynamic mix of influences from internal workings of mass media such as journalistic norms to external political economic cultural and social factors shape what becomes a climate story Providing a bridge between academic considerations and real world developments this book helps students academic researchers and interested members of the public make sense of media reporting on climate change as it explores who speaks for climate and what effects this may have on the spectrum of possible responses to contemporary climate challenges

The Moral Economies of Ethnic and Nationalist Claims Bruce J. Berman, André Laliberté, Stephen J. Larin, 2016-09-15 At a time when states armed insurgent movements and ethnic and nationalist political parties make claims based on the defence of communal interests and political and religious ideologies with often deadly consequences it is important to understand the discourses and actions that are used to legitimize these claims This book argues that competing moral economies the beliefs and practices that normatively regulate and legitimize the distribution of wealth power and status in a society play an important role in ethnic and nationalist conflict Bringing together international experts on the politics of ethnicity and nationalism this final volume in the prestigious EDG series investigates how moral economies have been challenged in identity based communities in ways that precipitate or exacerbate conflicts The combination of theoretical chapters and case studies ranging from Africa and Asia to North America provides compelling evidence for the value of moral economy analysis in understanding problems associated with ethnic and nationalist mobilization and conflict

Post-Recession Community College Reform Chet Jordan, Anthony Picciano, 2019-07-23 The book analyses and evaluates several key community college reform programs that emerged after the Recession of 2008 and as a result of major initiatives in California New York Tennessee Florida Connecticut and Wisconsin Because of the economic downturn in the early 21st Century an already eroding financial base for public higher education saw even further losses At the same time enrollments were booming particularly in the two year sector where many students who would have traditionally forgone a college education were now enrolling to ensure their competitiveness in a harsh labor market Chapters in this book examine the development and implementation of initiatives and accountability measures imposed across the states by the Obama administration and consider their effectiveness in reducing the impact of the loss of students and their role in improving courses This book will be of interest to postgraduates and researchers exploring the history of education in the United States as well as academic administrators faculty and policy makers with an interest in reform based practices that have been successfully implemented in community colleges
