*(Re)defining Success in Language Learning* Katie A. Bernstein, 2020-09-08 This book follows four emergent bilingual students in an English medium pre kindergarten in the US as they navigate the social and linguistic demands of school. It illustrates how students' differing classroom social positions shaped their participation in interaction and in turn their English language learning across a school year. With a unique focus on both processes and outcomes, the book highlights language strategies that are overlooked if the focus is solely on one language or on group participation and it emphasizes the importance of assessment choice in shaping which learners appear to be successful. It is a powerful argument for recognising the translingual and multimodal abilities of learners even in education which is officially English medium and monolingual.

**Les langues écrites du monde** Heinz Kloss, Grant D. McConnell, 1989 *International Perspectives on Teaching English in Difficult Circumstances* Kuchah Kuchah, Fauzia Shamim, 2018-11-17 This book offers a holistic practitioner and research based perspective on English Language Teaching and teacher education in difficult circumstances. In addition to extending the current conceptualization of difficult circumstances in ELT to include the broader policy issues that may affect ELT in low to mid income countries, the book focuses on the challenges faced by practitioners and learners in contexts of confinement, conflict and special education. The chapters in this collection examine the challenges and problems that emerge from the complex current ELT environment and present examples of contextualized inquiry based strategies and interventions to address these challenges. Underlining the need to extend the boundaries of the discipline of ELT to include teaching learning in less privileged contexts, this wide ranging volume will appeal to students, scholars and practitioners of English Language Teaching.

**The Handbook of English Language Education in Nepal** Ram Ashish Giri, Laxman Gnawali, 2025-03-03 This book takes an interdisciplinary approach to explore wide ranging topics from applied linguistics, education, sociology, political science and cultural studies. It presents a comprehensive overview of English language education since its importation to Nepal. This volume covers English language education, ELE politics and policy theories and pedagogies, English as a medium of instruction, English teachers' professional development, multilingualism and linguistic ecology, perspectives on equity, diversity and inclusion as well as ELT and technology. Comprising scholarly discussions on emerging ELE issues in contemporary Nepal, the chapters explore various aspects of theoretical and pedagogical considerations of ELE. While delving into the growing future of English in Nepal, it also presents analytical case studies of its controversial present and past practices. It sheds light on its development, shifting paradigms and present state of affairs as well as the status of English in conjunction with the national language Nepali and other Indigenous languages. This book will be useful to students, researchers and teachers of education, linguistics and teacher training institutions. It will be an essential read for those involved in English language education, applied linguistics, EIL, WE, ELF, ESL, TESOL, ELT and TEFL as well as for teachers, teacher educators, teacher trainees and international aid organisations.
