Policy: The Company will retain records in an orderly fashion for time periods that comply with legal and governmental requirements and as needed for general business requirements.

Purpose: To outline the methods for filing, retaining, and disposing of business records necessary to support our work (including opinions, resolution of differences, conclusions and research utilized in analysis), our correspondence with customers/clients, our work product and items of continuing significance.

Scope: This procedure applies to all business documentation generated by the company. However, this does not necessarily cover internal or certain day-to-day business correspondence.
Drafts or other documents not utilized should not be retained. Documents and records transmitted as attachments via email should be considered separately from the email messages to which they are attached. Original client records or intellectual property will be returned to clients and will not be a part of our ongoing files.

Responsibilities:
The File Manager will be responsible for categorizing and maintaining a listing of records maintained and the location (i.e. by wall unit and shelf row number).
The Controller is responsible for overseeing the execution of company policy for Record Retention, Storage and Destruction of obsolete company records.

Procedure:

1.0 FILING SYSTEM

1.1 To ensure efficient access, filing centers will be established in each department. To reduce the amount of duplicate and unnecessary record retention, individual desk files should be avoided unless they are used in daily operations. All other departmental or company records should be filed in the departmental central filing areas.
