**Letter and the Spirit of Nineteenth-Century American Literature** Thomas Loebel, 2005 Moving back to the trial of Anne Hutchinson in Puritan Massachusetts and the captivity narrative of Mary Rowlandson in order to analyse the political signification Loebel provides a new context for examining the politically performative function of language in such texts as The Scarlet Letter Uncle Tom's Cabin and Waiting for the Verdict He also argues however that a specific theologic logic manifests itself in the political rhetoric of the nation such that the afterlife of the New Jerusalem resonates not just in the Blessings of Liberty enshrined in the Constitution but also in the shift from a religious understanding of union with Jesus to that of the Union of States as a nation theorising representation as a political theological legal and literary issue that has continued currency both in twentieth century literature and in the political discourse of America's global vision such as the axis of evil and the new world order Anyone interested in American literature and culture will view the relationship between ethics and justice differently after reading this book

**The New Debtors' Prison** Christopher B. Maselli, Paul Lonardo, 2019-05-21 Debtors prisons might sound like something out of a Dickens novel but what most Americans do not realize is that they are alive and well in a new and startling form Today more than 20 percent of the prison population is incarcerated for financial reasons such as failing to pay a fine This alarming trend not only affects the poor who are hit particularly hard but also ensnares the millions of self identified middle class people who are struggling to make ends meet All across the country people are being fined and even imprisoned for offenses as small as delinquency on student debt or an unpaid parking ticket However there is an insidious undercurrent to these practices that the average person might not realize Many counties depend on a steady supply of citizens to pay fines and court costs in order to make their budgets Minor vehicle infractions by design can rack up hundreds of dollars in charges that go straight to the city's coffers Combine this with the fact that many middle class people cannot handle an unexpected 400 expense and the general lack of awareness about the risk for being repeatedly jailed for failure to pay court costs probation and even per day charges for being in jail and you get an endless cycle of men and women either in debt or in prison for debt While shocking to some this system makes up today's debtors prisons In *The New Debtors Prison* Christopher Maselli draws from his personal knowledge of the criminal justice system based on his experience on both sides of the prison walls as an attorney as well as a former inmate to take a hard look at our modern prison system that systematically targets the poor and vulnerable of our society in order to fund the prison industrial complex
