This policy is intended as a guideline to assist in the delivery of patient care or management of hospital services. It is not intended to replace professional judgment in patient care or administrative matters.

PURPOSE

The purpose of this procedure is to provide the nursing staff and credentialed providers guidance for the proper collection and submission of specimens to the FMH laboratory.

SCOPE

This policy applies to the main FMH campus and all remote locations.

RESPONSIBILITY

All nursing services staff and credentialed providers who submit samples to the laboratory must ensure that the sample is of suitable quality for testing.

The Director of Clinical Laboratories is responsible for establishing the standards of acceptability for laboratory specimens.

The Laboratory Operations Director is responsible for communicating those standards to those who submit samples.

Remember: *"Laboratory results are only as good as the specimen you submit."*

Clinical Laboratory Specimen Collection Manual:

Handbook of Specimen Collection and Handling in Microbiology Jon Michael Miller, 1985 This handbook was designed to be used by laboratory and other medical personnel responsible for collecting and transporting specimens to the bacteriology laboratory The handbook should also be of value to personnel responsible for hospital epidemiology and nosocomial infection control The microbiology laboratory plays a critical role in successful patient care but the value of its reports is dependent upon the first step in specimen handling that is selecting collecting and transporting the specimen to the bacteriology laboratory In the final analysis the clinical bacteriology laboratory can be of little value to the physician and thus offer only minimal service to patient care if specimens are improperly collected and submitted for the isolation and identification of microorganisms Microbiologists must be aware also that misleading or insignificant information reported to a physician can be as harmful as incorrect results

Clinical Microbiology Procedures Handbook, 2016-05-02 In response to the ever changing needs and responsibilities of the clinical microbiology field Clinical Microbiology Procedures Handbook Fourth Edition has been extensively reviewed and updated to present the most prominent procedures in use today The Clinical Microbiology Procedures Handbook provides step by step protocols and descriptions that allow clinical microbiologists and laboratory staff personnel to confidently and accurately perform all analyses including appropriate quality control recommendations from the receipt of the specimen through processing testing interpretation presentation of the final report and subsequent consultation If you are looking for online access to the latest from this reference or site access for your lab please visit www.wiley.com/learn/clinmicronow
